

1. How does the clinical site relate to Population/Global Health?

This clinical site relates to Population/Global Health by collecting donations and raising money to provide affordable housing to those with financial burdens.

2. How were you an engaged nursing professional today?

I was an engaged nursing professional at Habitat for Humanity's ReStore by being attentive and asking questions. I assisted with other volunteers in stocking, rearranging, and cleaning donated items to the ReStore.

3. How did you contribute to the service of the community today?

I contributed to the service of the community by assisting with volunteers stocking, rearranging, and cleaning donated items to the ReStore.

4. Name 3 ways this clinical site impacts community health?

This clinical site impacts community health through home construction, home improvement for the elderly, and neighborhood revitalization.

5. Name 1 way this site could better serve the community and why?

This site could better serve the community by having home construction and building year-round, as opposed to just the warmer months. Housing availability, unfortunately, is not just a seasonal issue, but a year-round burden.

6. What health risks are experienced by the population served by today's clinical site?

Some health risks that are experienced by the population served by the clinical site include homelessness, untreated chronic illness, malnutrition.

7. How did this project change you or your thinking?

This project changed me and my thinking to the unfortunate reality that many people experience homelessness and poor healthcare accessibility.
