Video Interaction: Client comfort and end-of-life care	3/22/2023 6:03:00 PM	9 min	100%
<b>Stage 1 (2 of 2 Correct)</b>			
<b>Scenario</b>	Nurse Morgan is assigned to care for the client, Mrs. Longly, who is nearing the end of life. Mrs. Longly's family is at the bedside.		
<b>Character</b>	Claire Fogel		
<b>Selected Option/ Result</b>	"I hear you saying that you are not ready for your mother to give up."	<b>Result: Correct</b>	
<b>Rationale</b>	Clarifying is a therapeutic communication technique because it allows the nurse to validate the message received to ensure that both the nurse and client have a mutual interpretation of the message.		
<b>Character</b>	Karrie Perlman		
<b>Selected Option/ Result</b>	"Let's talk about your difference of opinion."	<b>Result: Correct</b>	
<b>Rationale</b>	Refocusing is a therapeutic communication technique because it allows the nurse to guide the conversation back to a previously discussed topic.		
<b>Stage 2 (2 of 2 Correct)</b>			
<b>Scenario</b>	Mrs. Longly's sister and daughter are in disagreement regarding Mrs. Longly's willingness to meet with the hospital chaplain.		
<b>Character</b>	Claire Fogel		

<b>Selected Option/ Result</b>	Morgan continues to listen to the conversation between the family.	<b>Result:</b> Correct
--------------------------------	--	------------------------

<b>Rationale</b>	Active listening is a therapeutic communication technique because the nurse takes in information using all the senses while conveying an open attitude toward the client.	
------------------	---	--

<b>Character</b>	Marge Ehlers	
------------------	--------------	--

<b>Selected Option/ Result</b>	"Let's talk about this more."	<b>Result:</b> Correct
--------------------------------	-------------------------------	------------------------

<b>Rationale</b>	Exploration is a therapeutic communication technique because it encourages the client to delve deeper into a topic or issue of concern.	
------------------	---	--

<b>Stage 3</b>	<b>(2 of 2 Correct)</b>	
----------------	-------------------------	--

<b>Scenario</b>	Nurse Morgan is caring for Mrs. Longly while dealing with multiple distractions in the room from Mrs. Longly's arguing grandchildren.	
-----------------	---	--

<b>Character</b>	Audra Longly	
------------------	--------------	--

<b>Selected Option/ Result</b>	"You are having difficulty resting because of the noise?"	<b>Result:</b> Correct
--------------------------------	---	------------------------

<b>Rationale</b>	Paraphrasing is a therapeutic communication technique because it allows the nurse to restate information provided by the client to determine whether or not the communication is mutually understood.	
------------------	---	--

<b>Character</b>	Karrie Perlman	
------------------	----------------	--

<b>Selected Option/ Result</b>	"Your mother needs to take rest periods throughout the day."	<b>Result:</b> Correct
--------------------------------	--	------------------------

<b>Rationale</b>	Refocusing is a therapeutic communication technique because it allows the nurse to guide the conversation back to a previously discussed topic.	
------------------	---	--

<b>Stage 4</b>	<b>(2 of 2 Correct)</b>	
----------------	-------------------------	--

<b>Scenario</b>	Nurse Morgan responds to Mrs. Longly's call light and discusses pain medication with her daughters Claire and Karrie.	
-----------------	---	--

<b>Character</b>	Claire Fogel	
------------------	--------------	--

<b>Selected Option/ Result</b>	"Tell me about your feelings and concerns about	<b>Result:</b> Correct
--------------------------------	---	------------------------

	your mother taking pain medication."	
<b>Rationale</b>	Open-ended questions are a therapeutic communication technique because they allow the client to direct the conversation and verbalize related thoughts and concerns.	
<b>Character</b>	Karrie Perlman	
<b>Selected Option/ Result</b>	"This is about your mother's need for medication. Let's ask her if she wants the medication."	<b>Result:</b> Correct

<b>Rationale</b>	Refocusing is a therapeutic communication technique because it allows the nurse to guide the conversation back to a previously discussed topic.	
<b>Stage 5 (2 of 2 Correct)</b>		
<b>Scenario</b>	Nurse Morgan discusses her concerns regarding Mrs. Longly and her family with nurse manager Debra and Dr. Donovan.	
<b>Character</b>	Debra Carlson	
<b>Selected Option/ Result</b>	"Could you help me have a discussion with the family?"	<b>Result:</b> Correct
<b>Rationale</b>	Assertive communication is an effective style of interpersonal communication because the nurse uses a combination of honesty and tactfulness to ensure the rights of self and others.	
<b>Character</b>	Dr. Donavan	
<b>Selected Option/ Result</b>	"I feel that the family could use some reinforcement of the things that you have already taught them."	<b>Result:</b> Correct
<b>Rationale</b>	Assertive communication is an effective style of interpersonal communication because the nurse uses a combination of honesty and tactfulness to ensure the rights of self and others.
