

# Individual Performance Profile

## RN Learning System Leadership Practice Quiz

|                                            |                                |
|--------------------------------------------|--------------------------------|
| Individual Name: <b>MARIANNA KALEMBASA</b> | Individual Score: <b>90.0%</b> |
| Student Number: <b>7201588</b>             | Practice Time: <b>9 min</b>    |
| Institution: <b>Lakeview CON</b>           |                                |
| Program Type: <b>BSN</b>                   |                                |
| Test Date: <b>4/15/2023</b>                |                                |

### Individual Performance in the Major Content Areas

|                                | #      | Individual | Individual Score (% Correct) |    |    |    |    |    |    |    |    |    |     |  |
|--------------------------------|--------|------------|------------------------------|----|----|----|----|----|----|----|----|----|-----|--|
| Sub-Scale                      | Points | Score      | 1                            | 10 | 20 | 30 | 40 | 50 | 60 | 70 | 80 | 90 | 100 |  |
| Managing Client Care           | 15     | 93.3%      |                              |    |    |    |    |    |    |    |    |    | ▲   |  |
| Coordinating Client Care       | 3      | 100.0%     |                              |    |    |    |    |    |    |    |    |    | ▲   |  |
| Professional Responsibilities  | 12     | 83.3%      |                              |    |    |    |    |    |    |    |    | ▲  |     |  |
| Maintaining a Safe Environment | 4      | 75.0%      |                              |    |    |    |    |    |    |    | ▲  |    |     |  |
| Facility Protocols             | 6      | 100.0%     |                              |    |    |    |    |    |    |    |    |    | ▲   |  |

### Topics To Review

#### Managing Client Care (1 item)

Managing Client Care: Assigning Appropriate Client to an LPN

#### Professional Responsibilities (2 items)

Professional Responsibilities: Use of HIPAA to Protect Client Privacy

Professional Responsibilities: Obtaining Consent for Care After Administration of a Narcotic

#### Maintaining a Safe Environment (1 item)

Maintaining a Safe Environment: Appropriate Actions for a Medication Error

### Outcomes

| <b>Nursing Process</b>                                    | <b>No of Points</b> | <b>Individual Score</b> | <b>Description</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-----------------------------------------------------------|---------------------|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Analysis/Diagnosis (RN 2013)                              | 14                  | 92.9%                   | Ability to analyze collected data and to reach an appropriate nursing judgment about the client's health status and coping mechanisms, specifically recognizing data indicating a health problem/risk and identifying the client's needs for health intervention. Also includes the ability to formulate appropriate nursing diagnoses/collaborative problems based on identified client needs.                                                                                                    |
| Planning (RN 2013)                                        | 8                   | 87.5%                   | Ability to apply nursing knowledge to the development of an appropriate plan of care for clients with specific health alterations or needs for health promotion/maintenance. Includes the ability to establish priorities of care, effectively delegate client care, and set appropriate client goals/outcomes in order to ensure clients' needs are met.                                                                                                                                          |
| Implementation/Therapeutic Nursing Intervention (RN 2013) | 18                  | 88.9%                   | Ability to select/implement appropriate interventions (e.g., technical skill, client education, communication response) based on nursing knowledge, priorities of care, and planned goals/outcomes in order to promote, maintain, or restore a client's health. Also includes the ability to appropriately respond to an unplanned event (e.g., observation of unsafe practice, change in client status) or life-threatening situation and to routinely take measures to minimize a client's risk. |

| <b>Priority Setting</b> | <b>No of Points</b> | <b>Individual Score</b> | <b>Description</b>                                                                                                                                                                                                 |
|-------------------------|---------------------|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                         | 2                   | 100.0%                  | Ability to demonstrate nursing judgment in making decisions about priority responses to a client problem. Also includes establishing priorities regarding the sequence of care to be provided to multiple clients. |

| <b>Thinking Skills</b> | <b>No of Points</b> | <b>Individual Score</b> | <b>Description</b>                                                                                                 |
|------------------------|---------------------|-------------------------|--------------------------------------------------------------------------------------------------------------------|
| Clinical Application   | 40                  | 90.0%                   | The ability to apply nursing knowledge to a clinical situation. Incorporates Blooms Taxonomy category of Applying. |

| <b>NCLEX®</b>                        | <b>No of Points</b> | <b>Individual Score</b> | <b>Description</b>                                                                                                                                                                          |
|--------------------------------------|---------------------|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Management of Care RN 2013           | 35                  | 88.6%                   | Providing integrated, cost-effective care to clients by coordinating, supervising, and/or collaborating with members of the multi-disciplinary health care team.                            |
| Safety and Infection Control RN 2013 | 5                   | 100.0%                  | Incorporating preventative safety measures in the provision of client care that provides for the health and well-being of clients, significant others, and members of the health care team. |

| <b>QSEN</b>                | <b>No of Points</b> | <b>Individual Score</b> | <b>Description</b>                                                                                                                                                                                    |
|----------------------------|---------------------|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Safety                     | 15                  | 86.7%                   | The minimization of risk factors that could cause injury or harm while promoting quality care and maintaining a secure environment for clients, self, and others.                                     |
| Patient-Centered Care      | 10                  | 100.0%                  | The provision of caring and compassionate, culturally sensitive care that is based on a patient's physiological, psychological, sociological, spiritual, and cultural needs, preferences, and values. |
| Evidence Based Practice    | 4                   | 75.0%                   | The use of current knowledge from research and other credible sources to make clinical judgments and provide client-centered care.                                                                    |
| Quality Improvement        | 3                   | 100.0%                  | Care-related and organizational processes that involve the development and implementation of a plan to improve health care services and better meet the needs of clients.                             |
| Teamwork and Collaboration | 8                   | 87.5%                   | The delivery of client care in partnership with multidisciplinary members of the health care team, to achieve continuity of care and positive client outcomes.                                        |
