

N431 Adult Health II

Clinical Reflection Form

Name Courtland brooks

Date: 4/17/23

Clinical Rotation Site:

1. Briefly write about today's experience(s)

I went to the ED and took care of several patients to include one with massive leg wounds as well as 3 SI.

2. What is one thing you learned?

Wound care is usually called for chronic wounds because nurses are not familiar with the process of the care.

3. What is one thing you would do differently?

Talk more with the SI patients and ensure they have everything that they need.

4. What is your major "take home" from today's clinical experience(s)?

I still do not want to deal with mental health patients more than I have too.

5. Is there anything else you would like to mention?
Not really.
