MIDTERM

FACULTY COMMENTS: Noredia is doing well in the clinical setting. She is attentive to her patients' needs and has great bedside manner. She practices with a questioning attitude and appears very eager to learn. In the weeks to come, I would like for Noredia to focus on pharmacology and familiarizing herself with the medications that she is administering to her patients.

FINAL

FACULTY COMMENTS: Noredia continues to do well in the clinical setting. She is attentive to her patient's needs and has good bedside manner. Moving forward, I would like Noredia to reflect back on what she has learned in Adult Health II and how this knowledge can be applied to Adult Health III and her nursing practice.

STUDENT COMMENTS: This was a wonderful clinical experience which helped me gain confidence in passing medications, doing skills, and interacting with different kinds of patients. I enjoyed the rotations the most. Ways to possibly improve could be to include activities or light discussions in the morning correlating to any weakness the cohort has. I think it would help prepare the group's mind every morning before going to the floor. Thank you for your time and teachings this semester!
