**MIDTERM**

**FACULTY COMMENTS:** Toni is doing well in the clinical setting. She is attentive to her patients' needs and has great bedside manner. She practices with a questioning attitude and appears very eager to learn. In the weeks to come, I would like for Toni to focus on pharmacology and familiarizing herself with the medications that she is administering to her patients.

**FINAL**

**FACULTY COMMENTS:** Toni continues to do well in the clinical setting. She is a great team player and practices with a questioning attitude. Toni has great critical thinking, clinical judgment, and bedside manner. Moving forward, I would like for Toni to reflect on what she has learned in Adult Health II and how it can be applied to Adult Health III and her future nursing practice.

**STUDENT COMMENTS:**

I have really enjoyed your class. I have learned a lot and gain new perspective in many things that will help guide me in my nursing practice. This class has made me think, it has also made me question myself and wonder, am I meant to do this? It has made some very insecure moments for me, For sure, but I also feel it has

strengthened me, and helped me more with my critical thinking. Nursing, healthcare in general is not for the weak. This course book wise has been extremely difficult for me and I'm not sure why things make sense but when I see it on paper it just gets all messed up and confusing. I really appreciate the way you have helped me, and taken time out of your schedule to teach me and help me understand in a way that I actually get it. Thank you for all of your help and making me feel like I made the right choice by going into nursing. Now I just have to pass this final lol. Thank you again, you are much appreciated.
