Topics To Review Go to your **Improve** tab to access your Focused Review Experience

Management of Care (3 items)

Client Rights (1 item)

Professional Responsibilities: Informed Consent for Participating in a Research Study (RM Leadership 8.0 Chp 3
Professional Responsibilities,Active Learning Template: Basic Concept)

Establishing Priorities (1 item)

Medical Conditions: Prioritizing Care for Antepartum Clients (RM MN RN 11.0 Chp 9 Medical Conditions,Active Learning
Template: System Disorder)

Information Technology (1 item)

Safe Medication Administration and Error Reduction: Identifying Electronic Databases for Research (RM Fund 10.0 Chp
47 Safe Medication Administration and Error Reduction,Active Learning Template: Basic Concept)

Safety and Infection Control (2 items)

Accident/Error/Injury Prevention (1 item)

Topics To Review Go to your Improve tab to access your Focused Review Experience

Mobility and Immobility: Pressure Injuries (RM Fund 10.0 Chp 40 Mobility and Immobility,Active Learning Template: Basic Concept)

Ergonomic Principles (1 item)

Mobility and Immobility: Evaluating Client Understanding of Crutch Safety (RM Fund 10.0 Chp 40 Mobility and Immobility,Active Learning Template: Basic Concept)

Health Promotion and Maintenance (9 items)

Aging Process (1 item)

Newborn Assessment: Expected Findings (RM MN RN 11.0 Chp 23 Newborn Assessment,Active Learning Template: Basic Concept)

Ante/Intra/Postpartum and Newborn Care (2 items)

Medical Conditions: Prioritizing Care of Multiple Clients (RM MN RN 11.0 Chp 9 Medical Conditions,Active Learning Template: System Disorder)

Nutrition During Pregnancy: Teaching About Folic Acid (RM MN RN 11.0 Chp 5 Nutrition During Pregnancy,Active Learning Template: Medication)

Developmental Stages and Transitions (1 item)

Health Promotion of Toddlers (1 to 3 years): Assessing Developmental Milestones (RM NCC RN 11.0 Chp 4 Health Promotion of Toddlers (1 to 3 Years),Active Learning Template: Growth and Development)

Health Promotion/Disease Prevention (3 items)

Heart Failure and Pulmonary Edema: Risk Factors for Heart Failure (RM AMS RN 11.0 Chp 32 Heart Failure and Pulmonary Edema,Active Learning Template: System Disorder)

Neurocognitive Disorders: Risk Factors for Alzheimer's Disease (RM MH RN 11.0 Chp 17 Neurocognitive Disorders,Active Learning Template: System Disorder)

Pediatric Emergencies: Planning Education About Sudden Infant Death Syndrome (RM NCC RN 11.0 Chp 43 Pediatric Emergencies,Active Learning Template: Basic Concept)

Health Screening (1 item)

Musculoskeletal Congenital Disorders: Screening for Idiopathic Scoliosis (RM NCC RN 11.0 Chp 28 Musculoskeletal Congenital Disorders,Active Learning Template: Diagnostic Procedure)

High Risk Behaviors (1 item)

Health Promotion and Disease Prevention: Priority Intervention When Assisting a Client With Smoking Cessation (RM Fund 10.0 Chp 16 Health Promotion and Disease Prevention,Active Learning Template: Basic Concept)

Psychosocial Integrity (4 items)

Behavioral Interventions (2 items)

Anxiety Disorders: Action for a Client Who Is Experiencing a Panic Level of Anxiety (RM MH RN 11.0 Chp 11 Anxiety Disorders,Active Learning Template: Basic Concept)

Group and Family Therapy: Identifying Characteristics of a Therapeutic Group (RM MH RN 11.0 Chp 8 Group and Family Therapy,Active Learning Template: Basic Concept)

Cultural Awareness/Cultural Influences on Health (1 item)

Cultural, Ethnic, and Religious Influences: Planning Client Care During Passover (RM Nutrition 7.0 Chp 6 Cultural, Ethnic, and Religious Influences,Active Learning Template: Basic Concept)

Grief and Loss (1 item)

Death and Dying: Recognizing Preschool Responses to Death (RM NCC RN 11.0 Chp 11 Death and Dying,Active Learning Template: Growth and Development)

Basic Care and Comfort (5 items)

Non-Pharmacological Comfort Interventions (2 items)

Benign Prostatic Hyperplasia, Erectile Dysfunction, and Prostatitis: Identifying Medication Interactions With Saw Palmetto (RM AMS RN 11.0 Chp 66 Disorders of the Male Reproductive System,Active Learning Template: Medication)

Pain Management: Caring for a Client Who Is in Active Labor (RM MN RN 11.0 Chp 12 Pain Management,Active Learning Template: Basic Concept)

Nutrition and Oral Hydration (1 item)

Sources of Nutrition: Best Source of Vitamin C (RM Nutrition 7.0 Chp 1 Sources of Nutrition,Active Learning Template: Basic Concept)

Personal Hygiene (1 item)

Topics To Review Go to your Improve tab to access your Focused Review Experience

Grief, Loss, and Palliative Care: Performing Postmortem Care Prior to a Family Visit (RM Fund 10.0 Chp 36 Grief, Loss, and Palliative Care,Active Learning Template: Basic Concept)

Rest and Sleep (1 item)

Rest and Sleep: Priority Findings to Report to the Provider (RM Fund 10.0 Chp 38 Rest and Sleep,Active Learning Template: Basic Concept)

Pharmacological and Parenteral Therapies (12 items)

Adverse Effects/Contraindications/Side Effects/Interactions (2 items)

Medications Affecting Coagulation: Medication Interactions With Warfarin (RM Pharm RN 8.0 Chp 25 Medications Affecting Coagulation, RM Pharm RN 8.0 Chp 25 Medications Affecting Coagulation v2,Active Learning Template: Medication)

Medications for Children and Adolescents Who Have Mental Health Issues: Reportable Finding in an Adolescent Who Has ADHD (RM MH RN 11.0 Chp 25 Medications for Children and Adolescents Who Have Mental Health Issues,Active Learning Template: System Disorder)

Central Venous Access Devices (1 item)

Intravenous Therapy: Preparing Client for Insertion of a Nontunneled Percutaneous Central Venous Access Device (RM Fund 10.0 Chp 49 Intravenous Therapy,Active Learning Template: Therapeutic Procedure)

Expected Actions/Outcomes (1 item)

Pain Management: Pudendal Block (RM MN RN 11.0 Chp 12 Pain Management,Active Learning Template: Basic Concept)

Medication Administration (5 items)

Diabetes Mellitus: First Action When Mixing NPH and Regular Insulin (RM Pharm RN 8.0 Chp 39 Diabetes Mellitus, RM Pharm RN 8.0 Chp 39 Diabetes Mellitus v2,Active Learning Template: Medication)

Disorders of the Eye: Teaching a Client About Timolol (RM AMS RN 11.0 Chp 12 Disorders of the Eye,Active Learning Template: Medication)

Neurocognitive Disorders: Providing Teaching About Memantine (RM MH RN 11.0 Chp 17 Neurocognitive Disorders,Active Learning Template: Medication)

Non-Opioid Analgesics: Administering Headache Medications to a Client Who Has a History of a Peptic Ulcer (RM Pharm RN 8.0 Chp 35 Nonopioid Analgesics, RM Pharm RN 8.0 Chp 35 Non-Opioid Analgesics v2,Active Learning Template: System Disorder)

Therapeutic Procedures to Assist with Labor and Delivery: Indications for Increasing the Rate of Oxytocin Infusion (RM MN RN 11.0 Chp 15 Therapeutic Procedures to Assist with Labor and Delivery,Active Learning Template: Medication)

Parenteral/Intravenous Therapies (2 items)

Blood and Blood Products: Identifying Supplies for Transfusion (RM Pharm RN 8.0 Chp 27 Blood and Blood Products, RM Pharm RN 8.0 Chp 27 Blood and Blood Products v2,Active Learning Template: Basic Concept)

Hospitalization, Illness, and Play: Preparing a School-Age Child for IV Catheter Insertion (RM NCC RN 11.0 Chp 10 Hospitalization, Illness, and Play,Active Learning Template: Growth and Development)

Pharmacological Pain Management (1 item)

Non-Opioid Analgesics: Action to Take When Responding to Client's Report of Pain (RM Pharm RN 8.0 Chp 35 Nonopioid Analgesics, RM Pharm RN 8.0 Chp 35 Non-Opioid Analgesics v2,Active Learning Template: Basic Concept)

Reduction of Risk Potential (8 items)

Changes/Abnormalities in Vital Signs (1 item)

Vital Signs: Measuring Pulse Deficit (RM Fund 10.0 Chp 27 Vital Signs,Active Learning Template: Nursing Skill)

Diagnostic Tests (1 item)

Blood Neoplasms: Assisting with a Lumbar Puncture for an Infant (RM NCC RN 11.0 Chp 40 Blood Neoplasms,Active Learning Template: Diagnostic Procedure)

Laboratory Values (1 item)

Electrolyte Imbalances: Nursing Interventions for Hypocalcemia (RM AMS RN 11.0 Chp 44 Electrolyte Imbalances,Active Learning Template: System Disorder)

Potential for Alterations in Body Systems (2 items)

Acute and Infectious Respiratory Illnesses: Assessing a Child Who Has Moderate Dehydration (RM NCC RN 11.0 Chp 17 Acute and Infections Respiratory Illnesses,Active Learning Template: Basic Concept)

Benign Prostatic Hyperplasia, Erectile Dysfunction, and Prostatitis: Postoperative Care Following a Transurethral Resection of t (RM AMS RN 11.0 Chp 66 Disorders of the Male Reproductive System,Active Learning Template: Therapeutic Procedure)

Topics To Review

Go to your **Improve** tab to access your Focused Review Experience

Potential for Complications from Surgical Procedures and Health Alterations (1 item)

Postoperative Nursing Care: Evaluating Readiness for Discharge From the PACU (RM AMS RN 11.0 Chp 96
Postoperative Nursing Care,Active Learning Template: Basic Concept)

System Specific Assessments (1 item)

Postoperative Nursing Care: Caring for a Client Who Has Delayed Wound Healing (RM AMS RN 11.0 Chp 96
Postoperative Nursing Care,Active Learning Template: System Disorder)

Therapeutic Procedures (1 item)

Arthroplasty: Planning to Position a Client Following Total Hip Arthroplasty (RM AMS RN 11.0 Chp 68 Arthroplasty,Active
Learning Template: Therapeutic Procedure)

Physiological Adaptation (4 items)

Illness Management (1 item)

Cancer and Immunosuppression Disorders: Teaching About Food Safety and Preparation for a Client Who Has AIDS
(RM Nutrition 7.0 Chp 16 Cancer and Immunosuppression Disorders,Active Learning Template: System Disorder)

Medical Emergencies (2 items)

Burns: Priority Action for a Toddler Who Has Burns (RM NCC RN 11.0 Chp 32 Burns,Active Learning Template: System
Disorder)

Musculoskeletal Trauma: Identifying Manifestations of a Fat Emboli (RM AMS RN 11.0 Chp 71 Musculoskeletal
Trauma,Active Learning Template: System Disorder)

Pathophysiology (1 item)

Pressure Injury, Wounds, and Wound Management: Staging a Pressure Ulcer (RM Fund 10.0 Chp 55 Pressure Injury,
Wounds, and Wound Management,Active Learning Template: Nursing Skill)

Clinical Judgment (4 items)

Recognize Cues (1 item)

Fractures: Identifying Findings Requiring Follow-up for a Child Who Has Arm Pain (RM NCC RN 11.0 Chp 27
Fractures,Active Learning Template: System Disorder)

Analyze Cues (1 item)

Fractures: Analyzing Assessment Findings for a Child Who Has Arm Pain (RM NCC RN 11.0 Chp 27 Fractures,Active
Learning Template: System Disorder)

Take Actions (1 item)

Fractures: Priority Actions for a Child Who Has a Fracture (RM NCC RN 11.0 Chp 27 Fractures,Active Learning
Template: System Disorder)

Evaluate Outcomes (1 item)

Fractures: Evaluating Discharge Teaching for a Child Who Has a Fracture (RM NCC RN 11.0 Chp 27 Fractures,Active
Learning Template: Therapeutic Procedure)

Outcomes

Nursing Process	No of Points	Individual Score	Description
RN Assessment	21	61.9%	The assessment step of the nursing process involves application of nursing knowledge to the collection, organization, validation and documentation of data about a client's health status. The nurse focuses on the client's response to a specific health problem including the client's health beliefs and practices. The nurse thinks critically to perform a comprehensive assessment of subjective and objective information. Nurses must have excellent communication and assessment skills in order to plan client care.
RN Analysis/Diagnosis	42	73.8%	The analysis step of the nursing process involves the nurse's ability to analyze assessment data to identify health problems/risks and a client's needs for health intervention. The nurse identifies patterns or trends, compares the data with expected standards or reference ranges and draws conclusions to direct nursing care. The nurse then frames nursing diagnoses in order to direct client care.
RN Planning	31	54.8%	The planning step of the nursing process involves the nurse's ability to make decisions and problem solve. The nurse uses a client's assessment data and nursing diagnoses to develop measureable client goals/outcomes and identify nursing interventions. The nurse uses evidenced based practice to set client goals, establish priorities of care, and identify nursing interventions to assist the client to achieve his goals.
RN Implementation/Therapeutic Nursing Intervention	60	73.3%	The implementation step of the nursing process involves the nurse's ability to apply nursing knowledge to implement interventions to assist a client to promote, maintain, or restore his health. The nurse uses problem-solving skills, clinical judgment, and critical thinking when using interpersonal and technical skills to provide client care. During this step the nurse will also delegate and supervise care and document the care and the client's response.
RN Evaluation	19	63.2%	The evaluation step of the nursing process involves the nurse's ability to evaluate a client's response to nursing interventions and to reach a nursing judgment regarding the extent to which the client has met the goals and outcomes. During this step the nurse will also assess client/staff understanding of instruction, the effectiveness of interventions, and identify the need for further intervention or the need to alter the plan.

Priority Setting in Nursing	No of Points	Individual Score	Description
	23	60.9%	Ability to demonstrate nursing judgment in making decisions about priority responses to a client problem. Also includes establishing priorities regarding the sequence of care to be provided to multiple clients.

Thinking Skills	No of Points	Individual Score	Description
Foundational Thinking	18	55.6%	The ability to comprehend information and concepts. Incorporates Blooms Taxonomy categories of Remembering and Understanding.
Clinical Application	125	68.8%	The ability to apply nursing knowledge to a clinical situation. Incorporates Blooms Taxonomy category of Applying.
Clinical Judgment	30	70.0%	The ability to analyze and interpret elements of a clinical situation to make a decision and respond appropriately. Incorporates Blooms Taxonomy categories of Analyzing and Evaluating.

NCLEX®	No of Points	Individual Score	Description
RN Management of Care	27	88.9%	The nurse coordinates, supervises and/or collaborates with members of the health care to provide an environment that is cost-effective and safe for clients.
RN Safety and Infection Control	17	88.2%	The nurse uses preventive safety measures to promote the health and well-being of clients, significant others, and members of the health care team.
RN Health Promotion and Maintenance	14	35.7%	The nurse directs nursing care to promote prevention and detection of illness and support optimal health.
RN Psychosocial Integrity	13	69.2%	The nurse directs nursing care to promote and support the emotional, mental and social well-being of clients and significant others.
RN Basic Care and Comfort	13	61.5%	The nurse provides nursing care to promote comfort and assist client to perform activities of daily living.
RN Pharmacological and Parenteral Therapies	22	45.5%	The nurse administers, monitors and evaluates pharmacological and parenteral therapy.
RN Reduction of Risk Potential	17	52.9%	The nurse directs nursing care to decrease clients' risk of developing complications from existing health disorders, treatments or procedures.
RN Physiological Adaptation	20	80.0%	The nurse manages and provides nursing care for clients with an acute, chronic or life threatening illness.

Clinical Areas	No of Points	Individual Score	Description
Fundamentals	26	69.2%	Ability to apply fundamental nursing principles and skills to basic needs of clients. Topics include foundational client care concepts (ie: medical and surgical asepsis, infection control, physical assessment, therapeutic communication, medication administration, pain management integral to the delivery of safe, ethical, and legal nursing practice.
Adult Medical-Surgical	36	69.4%	Ability to apply medical-surgical nursing knowledge to clinical problems experienced by adults. Topics include care of clients with cardiovascular, hematologic, gastrointestinal, neurosensory, endocrine, fluid and electrolyte, integumentary, lymph/immune/infectious, renal and urinary, musculoskeletal, reproductive, and respiratory disorders as well as topics relevant to perioperative nursing care and emergency care/triage.
Maternal Newborn	15	53.3%	Ability to apply nursing knowledge to perinatal nursing care. Topics include antepartum, intrapartum, and postpartum nursing care as well as care of the newborn.
Mental Health	20	75.0%	Ability to apply nursing knowledge to the care of clients with mental health disorders. Topics include foundational mental health concepts (e.g., therapeutic communication, therapeutic milieu, legal/ethical issues), care of clients experiencing psychobiologic disorders or psychiatric emergencies, and care of clients receiving traditional nonpharmacological and psychopharmacological therapies.
Nursing Care of Children	40	55.0%	Ability to apply nursing knowledge to clinical problems experienced by children. Topics include basic concepts (e.g., medication administration, physical assessment, nutritional needs), care of children with various system disorders, care of children experiencing pediatric emergencies (e.g., accidental poisoning, respiratory arrest), and care of children with psychosocial disorders.
Leadership	14	92.9%	Ability to manage the care of a caseload of clients and nursing care team while using principles of management and supervision. Topics include leadership skills (ie: interdisciplinary collaboration, advocacy, prioritization, delegation), performance improvement, continuity of client care, and principles of case management while ensuring safe client care and efficient utilization of human and material resources.
Community Health	5	100.0%	Ability to apply concepts related to public and community health. Topics include primary, secondary, and tertiary interventions, health screening, health related education, home health and injury prevention, disaster planning, and cultural diversity.
Pharmacology	12	66.7%	Ability to apply concepts related to the pharmacodynamics and pharmacotherapeutics of commonly prescribed medications for clients with physical and mental health disorders. Topics include principles of medication administration and dosage calculation, side/adverse effects, drug/food interactions, contraindications, and nursing implications integral to the safe administration of medications to clients across the lifespan.
Nutrition	5	60.0%	Ability to apply nursing knowledge to normal nutrition and diet therapy. Topics include the collection of data regarding nutritional status; implementation of actions to promote normal nutrition or dietary modification in response to illness; and evaluation of the client's response to diet therapy.

QSEN	No of Points	Individual Score	Description
Safety	37	78.4%	The minimization of risk factors that could cause injury or harm while promoting quality care and maintaining a secure environment for clients, self, and others.
Patient-Centered Care	42	69.0%	The provision of caring and compassionate, culturally sensitive care that is based on a patient's physiological, psychological, sociological, spiritual, and cultural needs, preferences, and values.
Evidence Based Practice	85	60.0%	The use of current knowledge from research and other credible sources to make clinical judgments and provide client-centered care.
Informatics	2	50.0%	The use of information technology as a communication and information gathering tool that supports clinical decision making and safe, scientifically based nursing practice.
Quality Improvement	2	100.0%	Care-related and organizational processes that involve the development and implementation of a plan to improve health care services and better meet the needs of clients.
Teamwork and Collaboration	5	100.0%	The delivery of client care in partnership with multidisciplinary members of the health care team, to achieve continuity of care and positive client outcomes.

NLN Competency	No of Points	Individual Score	Description
Human Flourishing	29	58.6%	Human flourishing is reflected in patient care that demonstrates respect for diversity, approaches patients in a holistic and patient-centered manner, and uses advocacy to enhance their health and well-being.
Nursing Judgment	107	63.6%	Nursing judgment involves the use of critical thinking and decision making skills when making clinical judgments that promote safe, quality patient care.
Professional Identity	13	92.3%	Professional identity reflects the professional development of the nurse as a member and leader of the health care team who promotes relationship-centered care, and whose practice reflects integrity and caring while following ethical and legal guidelines.
Spirit of Inquiry	24	83.3%	A spirit of inquiry is exhibited by nurses who provide evidence based clinical nursing practice and use evidence to promote change and excellence.

BSN Essentials	No of Points	Individual Score	Description
Liberal Education for Baccalaureate Generalist Nursing Practice	25	68.0%	The need for an education that exposes nurses to multiple fields of study providing the foundation for a global perspective of society as well as high level thinking and acquisition of skills that can be applied to complex patient and system-based problems.
Basic Organization and Systems Leadership for Quality Care and Patient Safety	15	93.3%	The need for nurses to be able to understand power relationships and use decision-making and leadership skills to promote safe practice and quality improvement within health care systems.
Scholarship for Evidence-Based Practice	81	61.7%	The need for nurses to be able to understand the research process and base practice and clinical judgments upon fact-based evidence to enhance patient outcomes.
Information Management and Application of Patient Care Technology	2	50.0%	The need for nurses to be able to use computer-based information management systems and patient care technology in the provision of client care.
Healthcare Policy, Finance, and Regulatory Environments	1	100.0%	The need for nurses to be able to understand the role of regulatory agencies in relation to the development of health care policies and their effect on patient care services, access to care, financial reimbursement, and scope of nursing practice.
Interprofessional Communication and Collaboration	6	100.0%	The need for nurses to be able to function as a member of the healthcare team while promoting an environment that supports interprofessional communication and collaboration with the goal of providing patient-centered care.
Clinical Prevention and Population Health	21	66.7%	The need for nurses to be able to identify health related risk factors and facilitate behaviors that support health promotion, and disease and injury prevention, while providing population-focused care that is based on principles of epidemiology and promotes social justice.
Professionalism and Professional Values	2	100.0%	The need for nurses to be able to practice nursing in a professional manner while providing patient-centered care that is caring, respects diversity, and is governed by legal and ethical tenets.
Baccalaureate Generalist Nursing Practice	20	60.0%	The need for nurses to be able to practice as a generalist using clinical reasoning to provide care to patients across the lifespan and healthcare continuum and to individuals, families, groups, communities, and populations.

Clinical Judgment	No of Points	Individual Score	Description
Recognize Cues	5	60.0%	Filter information from different sources (i.e., signs, symptoms, health history, environment). Identify relevant information related to the client's condition. Use knowledge, experience and evidence to assess clients. Use verbal, nonverbal, written, and electronic modes of communication. Recognize relevant subjective/objective client data. Identify subtle and apparent changes in client condition and related factors.
Analyze Cues	9	55.6%	Link recognized cues to a client's clinical presentation and establishing probable client needs, concerns, or problems. Compare client findings to evidence-based resources and standards of care. Analyze expected and unexpected findings in health data. Anticipate illness/injury and wellness progression. Identify client problems and related health alterations. Analyze client needs. Identify potential complications. Identify how pathophysiology relates to clinical presentation. Identify data that is of immediate concern.

Prioritize Hypotheses	1	100.0%	Establish priorities of care based on the client's health problems (i.e. environmental factors, risk assessment, urgency, signs/ symptoms, diagnostic test, lab values, etc.). Organize client assessment information according to changes, patterns and trends. Use standards of care and empirical frameworks for priority setting. Establish and prioritize client problems/needs based on the analysis of information and factors.
Generate Solutions	2	100.0%	Identify expected outcomes and related nursing interventions to ensure clients' needs are met. Collaborate with members of the interprofessional healthcare team to establish client outcomes and the plan of care. Collaborate with client and care partners to establish client outcomes and the plan of care. Identify optimal client outcomes based on information and factors. Identify evidence-based nursing actions to effectively address the clinical situation of the client's health problem. Prioritize plan of care to achieve optimal client outcomes. Prioritize nursing care when caring for multiple clients. Re-prioritize nursing actions as the client's condition changes. Modify a plan of care to assure achievement of optimal client outcomes when indicated. Determine the potential impact of selected interventions.
Take Actions	3	66.7%	Implement appropriate interventions based on nursing knowledge, priorities of care, and planned outcomes to promote, maintain, or restore a client's health. Promptly and accurately perform nursing actions based on prioritized client problems. Implement a plan of care in collaboration with members of the interprofessional health care team. Implement a plan of care in collaboration with the client and care partners. Accurately document client care data and information. Incorporate client preferences and needs when performing nursing actions. Provide education to the client and/or care partner(s) regarding their health condition and care management. Participate in coordination of care with the client and healthcare team. Monitor the client's response to interventions.
Evaluate Outcomes	10	80.0%	Evaluate a client's response to nursing interventions and reach a nursing judgment regarding the extent to which outcomes have been met. Reassess client condition to determine achievement of expected outcomes. Evaluate efficacy of nursing actions determine if client outcomes were met. Modify client outcomes and/or nursing actions based on the client's response and clinical findings when indicated. Update and revise the plan of care.

AACN Essentials	No of Points	Individual Score	Description
Knowledge for Nursing Practice	26	65.4%	Integration, translation, and application of established and evolving disciplinary nursing knowledge and ways of knowing, as well as knowledge from other disciplines, including a foundation in liberal arts and natural and social sciences. This distinguishes the practice of professional nursing and forms the basis for clinical judgment and innovation in nursing practice.
Person-Centered Care	19	57.9%	Person-centered care focuses on the individual within multiple complicated contexts, including family and/or important others. Person-centered care is holistic, individualized, just, respectful, compassionate, coordinated, evidence-based, and developmentally appropriate. Person-centered care builds on a scientific body of knowledge that guides nursing practice regardless of specialty or functional area.
Population Health	10	80.0%	Population health spans the healthcare delivery continuum from public health prevention to disease management of populations and describes collaborative activities with both traditional and non-traditional partnerships from affected communities, public health, industry, academia, health care, local government entities, and others for the improvement of equitable population health outcomes.
Scholarship for the Nursing Discipline	72	65.3%	The generation, synthesis, translation, application, and dissemination of nursing knowledge to improve health and transform health care.
Quality and Safety	29	75.9%	Employment of established and emerging principles of safety and improvement science. Quality and safety, as core values of nursing practice, enhance quality and minimize risk of harm to patients and providers through both system effectiveness and individual performance.
Interprofessional Partnerships	5	80.0%	Intentional collaboration across professions and with care team members, patients, families, communities, and other stakeholders to optimize care, enhance the healthcare experience, and strengthen outcomes.
Informatics and Healthcare Technologies	1	0.0%	Information and communication technologies and informatics processes are used to provide care, gather data, form information to drive decision making, and support professionals as they expand knowledge and wisdom for practice. Informatics processes and technologies are used to manage and improve the delivery of safe, high-quality, and efficient healthcare services in accordance with best practice and professional and regulatory standards.
Professionalism	1	100.0%	Formation and cultivation of a sustainable professional identity, including accountability, perspective, collaborative disposition, and comportment, that reflects nursing's characteristics and values.
Personal, Professional, and Leadership Development	2	100.0%	Participation in activities and self-reflection that fosters personal health, resilience, and well-being; contributes to lifelong learning; and supports the acquisition of nursing expertise and the assertion of leadership.

Score Explanation and Interpretation

Individual Performance Profile

ADJUSTED INDIVIDUAL TOTAL SCORE

To adjust for possible differences in difficulty among the forms of this assessment, the raw score (the total number of points received) is converted to the adjusted individual total score through a process known as equating. The adjusted individual total score is on a scale of 0% to 100%.

PROBABILITY OF PASSING NCLEX-RN® ON THE FIRST ATTEMPT

The purpose of the “Predicted Probability of Passing NCLEX-RN on the First Attempt” is to provide a numeric indication of the likelihood of passing the NCLEX-RN at the student’s current level of readiness. For example, a student who has a score of 71.3% correct would be expected to have a 90% chance of passing the NCLEX-RN on the first attempt. Although this is a high probability of success, it is not a guarantee. The table below summarizes student performance on this assessment as it relates to NCLEX success.

RN COMPREHENSIVE PREDICTOR® EXPECTANCY TABLE

RN Comprehensive Predictor Individual Score	Predicted Probability of Passing the NCLEX-RN
80.7% to 100%	99%
78.7% to 80.6%	98%
74.7% to 78.6%	95% to 97%
71.3% to 74.6%	90% to 94%
69.3% to 71.2%	85% to 89%
67.3% to 69.2%	80% to 84%
64.7% to 67.2%	70% to 79%
62.7% to 64.6%	60% to 69%
60.7% to 62.6%	50% to 59%
59.3% to 60.6%	40% to 49%
56.7% to 59.2%	30% to 39%
0% to 56.6%	1% to 29%

NATIONAL MEAN

This is the average score of all examinees.

PROGRAM MEAN

This is the average score of all examinees within your specified program type.

NATIONAL PERCENTILE RANK

This is the percentage of examinees who scored at or below your score.

PROGRAM PERCENTILE RANK

This is the percentage of examinees within your program type who scored at or below your score.

ITEM SCORING

ATI follows NCSBN guidance for item scoring. Accordingly, each item is worth one or more points. Depending on the item-specific scoring method, a student’s response may earn full, partial, or no points.

TOPICS TO REVIEW

Based on the questions missed on this assessment, a listing of content areas and topics to review is provided. A variety of learning resources can be used in the review process, including content, images, animations and videos in ATI’s Content Mastery Series® Review Modules, online practice assessments, and a focused review that is individualized to the questions missed.
