Watch the expert video and submit a self-reflection

Reflection

Take notes here to describe the strengths and weaknesses of your own submission based on your review of the expert answer.

Strengths include: Listing all of the staff that works together to provide end of life care and listing all of the different contributions that they make as a whole. Weaknesses include not listing the contributions separately for each team member and not including the assessment, holistic care, coordination of care, and informing

Instructor Feedback Not Reviewed

My response

Nurses, doctors, social services, spiritual support, volunteers, pet therapy, and massage therapy all work together to provide pain management (pharmaceutical and non-pharmaceutical care) and to meet the needs and wishes for each client. The healthcare team works together to advocate for the client and when the time comes focuses on the family and provides grief counseling.
