

N431 Adult Health II

Clinical Reflection Form

Name: Zachary Lensink

Date:06/16/23

Clinical Rotation Site: OR

1. Briefly write about today's experience(s)

This was a great experience, getting to observe in the OR. The nurses and the rep for the pacemaker were very informative, making it a great learning environment.

2. What is one thing you learned?

I learned that placing a pacemaker in a patient with atrial fibrillation can cause the patient to have a first-degree block.

3. What is one thing you would do differently?

I would probably stay longer and forfeit or push back my lunch to watch more.

4. What is your major "take home" from today's clinical experience(s)?

Do not touch the table that has blue on it if you are not scrubbed in. you will be scolded (I did not do this, but it was made abundantly clear to me)

5. Is there anything else you would like to mention?

This was just a great clinical experience overall.
