### Topics To Review

## Outcomes

<b>Anatomy and Physiology</b>	<b>No of Points</b>	<b>Individual Score</b>	<b>Description</b>
Anatomy	26	100.0%	Anatomy is the study of the structure and organization of the organs and body systems that make up the human body.
Physiology	44	100.0%	Physiology is the study of how the organs and organ systems function within the human body.

# Score Explanation and Interpretation

## Individual Performance Profile

**Individual Score:** This score is determined by dividing the number of questions answered correctly on the assessment (or within a designated section) by the number of questions on the assessment (or within a designated section).

$$\frac{\text{Number of questions answered correctly}}{\text{Total number of questions on the assessment}} = \frac{\%}{\text{correct}}$$

For example:  $\frac{60}{70} = 85.7\%$

**NA:** Data not available

**Topics to Review:** Based on the questions missed on this assessment, a listing of content areas and topics to review is provided.
