Simulation	
Scenario	In this virtual simulation, you cared for Deion Barnes. The goal was to complete a focused head, neck, and neurological assessment. Review your results below to determine how your performance aligned with the goals of this simulation.
Overall Performance	You met the requirements to complete this virtual health assessment scenario. Score: 83.6%
Essential Actions	<p>Required actions - 13 of 16 correctly selected</p> <p>You have demonstrated a basic understanding of the required actions to complete a focused health assessment based on this client's health status. You demonstrated an understanding of the following required actions: inspecting the head and neck, palpating the head and neck.</p> <p>Spend time reviewing:</p> <ul style="list-style-type: none"> Communicating with the client to ask about family head, neck, and neurologic history Communicating with the client to ask about lifestyle When to sanitize hands when completing client care <p>Interactive actions - 1 of 1 performed correctly</p> <p>You demonstrated a thorough understanding of assessment techniques within the focused health assessment based on this client's health status. You demonstrated an understanding of the following assessment techniques: inspecting the head and neck.</p> <p>Expected/unexpected findings - 6 of 6 correctly identified</p> <p>You demonstrated a thorough understanding of the expected and unexpected findings from the focused health assessment based on this client's health status. You demonstrated an understanding of the expected and unexpected findings of the following: inspecting the head and neck, palpating the head and neck.</p>
Neutral Actions	<p>Neutral actions - 0 selected</p> <p>Neutral actions do not help or harm the client.</p> <ul style="list-style-type: none"> <i>Only</i> questions specifically related to the focused head, neck, and neurological assessment are necessary. <i>Only</i> steps specifically related to the focused head, neck, and neurological assessment are necessary.

This expert chart is intended to assist in evaluating student performance in documentation for this activity. Only the tabs and tables of the chart that warrant entries are included, and the expert responses for comparing against student responses are indicated with bold text.

Deion Barnes
MRN: 2974785
Allergies: none

DOB: 19 years old
Height: 70 in
Weight: 165 lb

Attending: John Mack, MD
Code Status: Full code
Comments: none

Notes

Notes Time	Notes Type	Professional Role
5.0 minutes after start	Nursing/Clinician Note	Nurse

Returned to school after 4 days. Reports problems focusing at school at first, but has been fine for 3 weeks. Returned to running and lifting weights recently, and reports being "totally fine." Drinks an occasional cup of coffee, but denies smoking, or use of alcohol or illicit substances.

Informant(s)

Informant if not patient (Name and relationship)

Family History

Chief Complaint

Principal Problem – Admission Diagnosis

History of concussion needs to be cleared to return to sports

Other Problems/Diagnosis

History of Present Illness/Injury

Location (Where are the Symptoms located?
Are they local or do they radiate?)

Duration (When did it start? How
long has this problem existed? Is
it getting worse? Changing?)

Timing (When does it occur?
Night or day? At work? etc.)

Quality (Characteristics such as
constant, sharp, dull, sore)

Severity (How bothersome is the
problem? Can you sleep, work, etc?)

Describe this illness/injury related to
how and where this problem began.

What makes this problem worse or better?

Signs and Symptoms

Comments

Sustained concussion 4 weeks ago when playing
baseball. Had a persistent headache for 3 days.

Did not lose consciousness. States headache was a
3 to 4 on a 0 to 10 scale for 3 days after injury.

Collided with a teammate; hit the back
of his head on the ground.

Took over-the-counter medicine for 3 days, which
"took the edge off." Believes it was acetaminophen.
Relaxing in a dark room helped the most

Denies nausea, vomiting, dizziness, or change
in consciousness. Denies neck pain

No headache for last 3 and a half weeks.
States "I'm feeling a lot better."
