Simulation		
Scenario	In this virtual simulation, you cared for Jeremy Reilly. The goal was to complete a focused skin assessment. Review your results below to determine how your performance aligned with the goals of this simulation.	
Overall Performance	You did not meet the requirements to complete this virtual health assessment scenario. Remediation is recommended before attempting this scenario again.	Score: 58.9%
Essential Actions	<p>Required actions - 11 of 17 correctly selected</p> <p>You did not demonstrate a basic understanding of the required actions to complete a focused health assessment based on this client's health status. You demonstrated an understanding of the following required actions: communicating with the client to elicit additional information, inspecting the abdomen, inspecting the head and neck, inspecting the lower extremities, inspecting the posterior chest.</p> <p>Spend time reviewing:</p> <ul style="list-style-type: none"> Inspecting skin of the anterior chest Inspecting skin of the upper extremities Inspecting turgor of the anterior chest Palpating skin temperature of the lower extremities Palpating skin temperature of the upper extremities When to sanitize hands when completing client care <p>Interactive actions - 0 of 2 performed correctly</p> <p>You did not demonstrate a basic understanding of assessment techniques within the focused health assessment based on this client's health status.</p> <p>Spend time reviewing the following assessment techniques:</p> <ul style="list-style-type: none"> Palpating skin temperature of the lower extremities Palpating skin temperature of the upper extremities 	

Essential Actions	<p>Expected/unexpected findings - 4 of 9 correctly identified</p> <p>You did not demonstrate a basic understanding of the expected and unexpected findings from the focused health assessment based on this client's health status. You demonstrated an understanding of the expected and unexpected findings of the following: inspecting the abdomen, inspecting the head and neck, inspecting the lower extremities, inspecting the posterior chest. Spend time reviewing the expected and unexpected findings of the following:</p> <ul style="list-style-type: none"> • Inspecting skin of the anterior chest • Inspecting skin of the upper extremities • Inspecting skin turgor • Palpating skin temperature of the lower extremities • Palpating skin temperature of the upper extremities
Neutral Actions	<p>Neutral actions - 4 selected</p> <p>Neutral actions do not help or harm the client.</p> <ul style="list-style-type: none"> • <i>Only</i> questions specifically related to the focused skin assessment are necessary. • <i>Only</i> steps specifically related to the focused skin assessment are necessary.
Actions of Concern	<p>Order violations - 1 selected</p> <p>Order violations occur when you move through the sequence of body areas in the incorrect order; move through the assessment techniques of inspection, palpation, and auscultation in the incorrect order; fail to place or remove gloves when required; or fail to provide for privacy or safety considerations before initiating or concluding a health assessment scenario.</p>

EHR Chart	
Instructor Review Status	Not Reviewed
Instructor Review	This chart has not been reviewed by the instructor. This report will populate with additional information when the status has changed.
Instructor Feedback	<p>Instructor feedback can be viewed by accessing the link on the on-line version of this report.</p> <p>If your instructor has enabled the Expert EHR Chart, you may view the example in the attached page.</p>
