1. Briefly write about today's experience(s)

Today's clinical experience was really slow in the unit. For the post part, management it then took up a bit while after of the pt, started coming sooner or to the recovery. The nurses were very nice + comfortable to talk to.

2. What is one thing you learned?

addressing the pt pain was an important concern to address  
↳ it allows for improvement in communication  
↳ overall improvement in mood.

3. What is one thing you would do differently?

Insert myself more into the care & speak up to the nurse to allow me to participate into the care of the pt.

4. What is your major "take home" from today's clinical experience(s)?

The major take home was that it is our job as nurses to ensure we follow ABC assessment after surgical procedures while also addressing the pt's pain for comfort.

5. Is there anything else you would like to mention?

~ No
