

N321 Adult Health I

Clinical Reflection Form

Name: Vanessa Jackson

Date: 10-9-23

Mid Term Journal

1. Discuss how you are feeling so far in clinical?

I feel good about it. I like that we rotate sites and not strictly on med surg.

2. What have been good experiences?

So far every week has nice. I always jump right in, and the nurses let me do a lot while teaching me. All my patients have also been wonderful, especially Ms. Sue (the one I spent my AM+PM clinical with)

3. Have there been any bad experiences? Could be you nervous about a skill or communication?

There was one thing I so happened to witness in the ER, but I already shared that w/ Professor Henry.

4. Do you need to talk with anyone in private to discuss clinical?

No

5. Is there anything else you would like to mention?

I think the care plan + concept map are a little much. It takes away from caring for your patient (time). The concept map is basically just another care plan.
