Mid Term Journal

1. Discuss how you are feeling so far in clinical?

I am enjoying clinical. I like the variety of areas we get to rotate to. I am a little nervous about the IV pumps.

2. What have been good experiences?

I think working 1:1 with the same nurse on the 4th floor has been beneficial. I don't really have anything that stands out more than the other at this time.

3. Have there been any bad experiences? Could be you arrvous about a skill or communication?

My first rotation in the ER was a little rocky but that has been resolved. I did speak to Professor Henry about it. The second rotation in the ER there was a situation where we (the other student that was with me that day) felt the NP was inappropriate with a care situation. Again, that was discussed with Professor Henry

4. Do you need to talk with anyone in private to discuss clinical?

No

5. Is there anything else you would like to mention?

Not at this time.
