

N431 Adult Health II

Clinical Reflection Form

Name: Karlie Roberts

Date: 11/13/23

Clinical Rotation Site: CT7A

1. Briefly write about today's experience(s)

My experience on CT7A was great! Jordan was my nurse for the morning, and he was truly a great preceptor! Having sort of worked in the area and knowing some of the nurses, it made for a great day. Everyone was so welcoming and nice. Jordan let me do a lot of skills in the room and totally took me under his wing.

2. What is one thing you learned?

One thing I learned is that things can change at the snap of a finger. The nurses are calm, cool, and collected when things get hazy, and they all work well together including the doctors.

3. What is one thing you would do differently?

The only thing I would do differently is wanting to have more days on CCU and be there for more than 4-5 hours. There is a lot to learn and is very interesting to me as someone who would love to work in CCU.

4. What is your major "take home" from today's clinical experience(s)?

My take home from today is that I can truly see myself working in a critical care setting.

5. Is there anything else you would like to mention?

Jordan was a great preceptor and I wish we had more days on CCU!
