# Hayley Siefert Community Interview Email

Hayley Siefert

to me

Thu, Nov 16, 8:25 PM (10 days ago)

Rancey,

1. I would say the biggest risk or hazard is the safety of the east end. I do not believe all of Danville is unsafe, but I still think a lot needs to be done.
2. The community's biggest strength is the people. We have many great people trying to make Danville an excellent place to live for the next generation.
3. I believe a weakness of our community is the local government. I sometimes wonder with the decisions they make if they have the best interest of the community.

I think we need to concentrate on providing better-quality housing for our community members. We are currently working on this in Oakwood and working on getting the local government to provide for our citizens.

I think the police force is doing a great job with safety in our community, but I feel like we still have a long way to go. I would assume most communities feel the same way. Danville was stuck in a rut for so long it will take time to rebuild.

Regarding health, I would say we do not have a lot of options that are healthy. This needs great improvement.

I would say there are more resources in our community than there have been regarding health, but I believe we are nowhere close to where we need to be.

# Linda Darby community interview email

Subject: RE: Questions

To: Jakob Dazey <jdazey25@gmail.com>

Hi Jakob-

I will be more than happy to answer what I can!

The risks/hazards for the community is empathy and lack of participation in trying to improve our community. People need to step up and utilize their God-given talents to make our community be everything it deserves to be. The community strengths come down to the people that live here that care and rise to the challenge of stepping up to do so. The biggest weakness is a lack of belief in where we live. If we don't believe in ourselves, no one else will. Suggestions for improvement is to join the Step Up Initiative or get involved in volunteering.

I see a great opportunity for a community change project. There are many in need in our community, many lacking resources. I see the need to put many of our non-profits/community agencies together in a Community Resource Hub-where they share resources, such as administrative staff, office equipment, better communication and don't duplicate resources etc. We are all vying for the same donation dollars, let's stretch those dollars and help people sooner, and give them a hand up and not just a hand out. That is when we will see improvement!

I don't feel unsafe here in our community. I think anywhere you live, you need to be aware of your surroundings and not go places that feel unsafe at any time. Community relationships are what make a difference.
