

## Community Informatics Activity

### Vital Statistics:

Go to <https://www.dph.illinois.gov/data-statistics/vital-statistics> and answer the following questions:

<p>1) What vital record events can be found on this website?</p>	<p>The vital record events found on this website include birth, death, marriages, divorces, adoptions, and abortion statistics.</p>
<p>2) Why would a public health nurse use this website for information?</p>	<p>A public health nurse would use the IDPH website to find all the general health-related information for their state.</p>

## US Census Bureau:

Go to <https://www.census.gov/data.html> and answer the following questions:

<p>1) What information can be found on this website?</p>	<p>The US Census Bureau provides data and information about the population and economy of the US. It contains data on demographic shift components like births and deaths. This information is gathered every ten years and includes information on ethnicity, income, education, age, race, and sex.</p>
--	---

<p>2) Why would a public health nurse use this website for information?</p>	<p>A public health nurse would use this website to view census statistics across a variety of topics for their state.</p>
---	---

**Champaign Public Health:**

Go to <https://www.c-uphd.org/> and answer the following questions:

<p>1) What vital record events can be found on this website?</p>	<p>This website provides Covid 19 information, community health plan information, maternal and child health, environmental health, teen and adult services, wellness and health promotion, dental health, and information on employment and finance.</p>
<p>2) Why would a public health nurse use this website for information?</p>	<p>A public health nurse would use this website to gather information and help people in the community find information or assistance with things like vaccinations, employment, and clinics where they could be seen.</p>

Centers for Disease Control and Prevention:

Go to <https://www.cdc.gov/> and answer the following questions:

<p>1) What vital record events can be found on this website?</p>	<p>The Centers for Disease Control and Prevention website provides essential information on health and safety topics, data and statistics, scientific articles, and security threats, both foreign and in the United States. The CDC also provides information regarding the prevalence of communicable and nationally notifiable diseases like smallpox, syphilis, and Covid-19. The website keeps travelers updated on immunizations they may need when going to other countries.</p>
<p>2) Why would a public health nurse use this website for information?</p>	<p>A public health nurse would use this website to find information about workplace safety and health or possible environmental health information to better service the community.</p>
