**Dear Hiring Director,**

I am applying for the position of Emergency Department Registered Nurse at Sarah Bush Lincoln Health Center. I am pursuing a full-time position in the Emergency Department where I may be able to use my existing skills and education. I look forward to refining skills I bring with me and establishing new ones in my practice. I am excited to graduate into the practice as a Registered Nurse and to be able to gain competence and education to fulfill the duties of an Emergency Department Registered Nurse at Sarah Bush Lincoln Hospital.

I have currently been employed for six years at Sarah Bush Lincoln hospital as an Emergency Department Technician. I have acquired much experience in the healthcare field in the jobs that I have held previously. I have developed an understanding of the evolution of the medical field and nursing care in the acute and emergent setting and am currently familiar with the organization of Sarah Bush Lincoln. During this time, I have begun and nearly completed nursing school. I have studied theories in acquired skills required to practice as a registered nurse. My education has also taught me the necessity of teamwork which has allowed fellow students to work together and succeed.

In my position as an Emergency Department Technician, I have had the opportunity to learn and practice skills beyond what I have as an EMT/B and a medical office assistant. Because this is a BSN program, I have also established a more focused instruction on nursing care theory, leadership, and facility policies.

Combining my experience with new skills and education I have gained at Lakeview College of Nursing; I feel I would be valuable and possess the necessary skills to offer effective and safe patient care. I am sincerely grateful for your time and consideration and look forward to hearing from you and joining your organization.

Respectfully,

Toni Andres
