

Topics To Review

Fluids & Electrolytes/Acid-Base Balance (1 item)

Fluids & Electrolytes/Acid-Base Balance: Effects of Antidiuretic Hormone

Immunological System (1 item)

Immunological System: White Blood Cell Function

Integumentary System (1 item)

Integumentary System: Thermoregulation

Respiratory System (2 items)

Respiratory System: Membranes of the Respiratory System

Respiratory System: Structure of the Upper Respiratory System

Renal System (3 items)

Renal System: Hormonal Fluid Regulation

Renal System: Renin and Angiotensin System

Renal System: Urine Formation

Gastrointestinal System (1 item)

Gastrointestinal System: Absorption of Iron and Bile Salts

Reproductive System (1 item)

Reproductive System: Process of Meiosis

Sensory and Neurological Systems (2 items)

Sensory and Neurological Systems: Functions of the Frontal Lobe

Sensory and Neurological Systems: Divisions of the Nervous System

Cells and Tissues (2 items)

Cells and Tissues: Mitosis

Cells and Tissues: Receptor Characteristics

Outcomes

Anatomy and Physiology	No of Points	Individual Score	Description
Anatomy	26	88.5%	Anatomy is the study of the structure and organization of the organs and body systems that make up the human body.
Physiology	44	75.0%	Physiology is the study of how the organs and organ systems function within the human body.

Score Explanation and Interpretation

Individual Performance Profile

Individual Score: This score is determined by dividing the number of questions answered correctly on the assessment (or within a designated section) by the number of questions on the assessment (or within a designated section).

$$\frac{\text{Number of questions answered correctly}}{\text{Total number of questions on the assessment}} = \frac{\%}{\text{correct}}$$

For example: $\frac{60}{70} = 85.7\%$

NA: Data not available

Topics to Review: Based on the questions missed on this assessment, a listing of content areas and topics to review is provided.
