<p>APA Format</p> <ul style="list-style-type: none"> • Appropriate APA in-text citations and listed all appropriate references in APA format • At least 2 scholarly source(s) are utilized and should be 5 or less years old • Source(s) greater than 5 years old will not be accepted • Reference page complete 	<p>No in-text citations present</p> <p>2 or more references are greater than 5 years old</p> <p>3 or more APA errors</p> <p>No reference page present</p>	<p>1-2 APA errors</p> <p>1 reference is greater than 5 years old</p> <p>In-text citations appropriately cited</p> <p>Reference page present</p>	<p>No APA errors present</p> <p>In-text citations appropriately cited</p> <p>Reference page present and formatted properly</p>	
Criteria	0 points	2.5 points	5 points	

<p><u>Evaluation of Teaching Presentation</u></p> <p>Introduction of content Patient put at ease Eye contact Clear speech and organized presentation Environment conducive to learning Family included (if applicable) Accuracy of information Validation of learning status Use of teaching aids Appropriate non-verbal body language</p> <p>*In the event the student is unable to present the teaching plan at the bedside, the student will present the teaching plan to the instructor during post-conference</p>	<p>Missing 2 or more of the following criteria:</p> <ul style="list-style-type: none"> • Introduction of content • Patient put at ease • Eye contact • Clear speech and organized presentation • Environment conducive to learning • Family included (if applicable) • Accuracy of information • Validation of learning status • Use of teaching aids • Appropriate non-verbal body language 	<p>Missing 1 of the following criteria:</p> <ul style="list-style-type: none"> • Introduction of content • Patient put at ease • Eye contact • Clear speech and organized presentation • Environment conducive to learning • Family included (if applicable) • Accuracy of information • Validation of learning status • Use of teaching aids • Appropriate non-verbal body language 	<p>Includes all criteria:</p> <ul style="list-style-type: none"> • Introduction of content • Patient put at ease • Eye contact • Clear speech and organized presentation • Environment conducive to learning • Family included (if applicable) • Accuracy of information • Validation of learning status • Use of teaching aids • Appropriate non-verbal body language 	
TOTAL				/30

Assessment of Client/Family (5 points)	Nursing Diagnosis & Goal of Teaching (5 points)	Interventions (5 points)	Methods/Teaching Tools (2 points)	Evaluation (3 points)
<p>Level of motivation for learning: Highly motivated</p> <p>Barriers to effective learning: The daughter (patient) kept interrupting the mom.</p> <p>Health beliefs/values:</p>	<p>Nursing Diagnosis: Impaired urinary elimination related to dysuria and urinary hesitancy as evidenced by the patient having abdominal cramping, fever (38.4 C), vomiting, difficulty urinating, and complaining of burning and pain when urinating (Phelps, 2020).</p>	<p>Intervention 1: Administer pharmacological medications to help with fever, pain, and vomiting (Phelps, 2020).</p> <p>Intervention 2:</p>	<p>Method 1: Provide a discussion with the patient's mother on ways to prevent future urinary tract infections (Phelps, 2020).</p> <p>Method 2: Teach back: Have the parent teach back how to wipe the daughter (Phelps,</p>	<p>Discuss how the client/family received the teaching: The patient's mother was very understanding and wanted to learn more about how to prevent and manage pain from her daughter's urinary tract infection.</p>

<p>The patient's mother prioritizes her daughter's health and is willing to learn how to prevent their daughter from getting another urinary tract infection.</p> <p>Psychosocial development: Initiative vs. Guilt (Taylor et al., 2019).</p> <p>Cognitive development: Preoperational (Taylor et al., 2019).</p>	<p>Goal of Teaching: The patient will achieve a normal urinary elimination pattern with decreasing signs of painful urination with a decrease in burning and hesitancy. The patient will also become fever-free, free of vomiting, and have a decrease in abdominal cramping (Phelps, 2020).</p>	<p>Teach the parent (mom) the importance of wiping the daughter front to back (Phelps, 2020).</p> <p>Intervention 3: Educate parent on increasing the child's fluid intake and completing the full course of antibiotics (Phelps, 2020).</p>	<p>2020).</p>	<p>Identify strengths/weaknesses of the client or family in receiving teaching: The patient's mother was able to ask questions and teach back what she had learned about wiping her daughter. A weakness was that the patient kept interrupting the mom as the patient was tired and whining.</p> <p>Suggest modifications to improve teaching plan (what would have improved the plan?): Trying to include the patient in the teaching by wiping herself, but the patient was very restless and upset as she wanted to go home.</p>
