

N321 Adult Health I

Clinical Reflection Form

Name: Tracy Donaldson

Date: 2/26/24

Mid Term Journal

1. Discuss how you are feeling so far in clinical?

I am feeling good about clinical. I am enjoying being able to see different areas of the hospital and do more things with the nurses.

2. What have been good experiences?

Mostly everything so far has been a good experience. ACU was very welcoming and helpful. The trainers on the unit have been excellent and PACU was good. I have not been to wound care yet. Also, Professor Henry has been very helpful with the concept map, care plan, and in general.

3. Have there been any bad experiences? Could you be nervous about a skill or communication?

The emergency department could have been better. Everyone was nice but kind of seemed like they didn't want a student trailing them. Also, there were already 2 graduate students training when I was there.

4. Do you need to talk with anyone in private to discuss clinical?

No, thank you.

5. Is there anything else you would like to mention?

No, thank you.
