

N321 Adult Health I

Clinical Reflection Form

Name: Xitlally Bonilla

Date: 2-26-24

Mid Term Journal

1. Discuss how you are feeling so far in clinical?

I am feeling good so far in clinicals. I like that I've been able to work on different units and experience different types of nursing.

2. What have been good experiences?

I really enjoyed working in the ICU this last week because I felt like it was really hands on and I was able to see a part of nursing that I haven't been able to see before. The nurses in the ICU were really nice and kind and pleasant to work with them.

3. Have there been any bad experiences? Could be you nervous about a skill or communication?

So far there hasn't been any bad experiences. Being in the emergency room has been a little underwhelming since I feel like it's just a lot of sitting. For myself I could probably work on being more confident and sure of myself when I do any skills.

4. Do you need to talk with anyone in private to discuss clinical?

As of now no.

5. Is there anything else you would like to mention?

I'm really enjoying clinical so far and it's not as scary as I thought it would be.
