

Kelsy Marsh
Legacy Project
E-Portfolio Summary

My personal experience at Salt & Light was a very humbling experience. Throughout my time at this organization, I was able to provide the community with my donated items, as well as my time served with this organization. I was able to relate this organization to nursing because it is helping the community by providing clothing, food, furniture, and even a social outlet for some people. Organizations such as Salt and Light truly benefit the community in the best ways possible. At this organization, everyone was extremely nice and pleasant to work with. It was nice knowing that everyone that works for this organization has the best intentions for the community, and the buyers who shop at Salt and Light. I would highly recommend volunteering at Salt and Light to anyone who is looking to tie nursing to a community feel, and the impact it makes upon others.
