

The legacy project made a great impact on my life. I enjoyed serving the community that I was raised in- Champaign/ Urbana. I was surprised by all of the resources that Salt and Light offers. In addition to thrift and food items at discounted prices, job training is also offered. The Salt and Light Organization made a difference in the community.

I worked alongside other volunteers. Some of the volunteers were younger and some older, but they all seemed to enjoy the experience. The people working there were helpful. We exceeded the goal they were trying to meet for the day. I was proud to help the team get ahead.

I've learned over time that gratitude is shown by actions. I am grateful for the experience and will support this organization in the future. The Salt and Light Organization serves thousands of people annually. I am still in awe over how many people are shown gratitude by this organization.
