

N434 Evidence-Based Practice

APA Practice

Summer 2024

Instructions: Working in groups of 2-3, students will practice APA 7th Edition formatting. Students will modify the following APA examples to comply with 7th edition APA guidelines. Students may utilize their APA books or Purdue OWL as resources for this activity.

NOTE: Some citations may contain no errors. If so, you can put "N/A" as the correction.

Pietrangelo, A. (2018, April 11). Cancer, obesity and Young Adults. Healthline. Retrieved May 25, 2022, from <https://www.healthline.com/health-news/obesity-a-factor-in-rising-rates-of-cancer-in-young-adults>

Correction:
