

SMART Goals

- 1.) Foundations of Professional Nursing
 - a. I will pass my first ATI exam with at least an 85% on the 9th.
 - b. I will pass the class with at least a 90% by the end of the semester.
- 2.) Introduction to Professional Nursing
 - a. I will get at least a 90% on all the papers that I write for class.
 - b. I will be able to identify and implement professional behaviors that are needed as a registered nurse by the end of the semester.
- 3.) Basic Health Assessment
 - a. I will fully understand the work and flow of how a basic health assessment is done by the end of the first semester.
 - b. I will read all the chapters from our health assessment book each week to learn the basic foundations such as how to identify and help those in an abusive relationship.
- 4.) Introduction to Pathophysiology
 - a. I will have a general understanding of the different diseases and infections, the symptoms, and the understanding of how different pathogens affect the body.
 - b. I will pass the class with an 85% by the end of the semester.
