Tiffany St. John
Supervisor
Nurse Residency Program
Carle Hospital
611 W. Park St.
Urbana, IL 61801

Dear Tiffany,

I am excited to apply for the Nurse Residency Program in the Medical/Surgical department at Carle. I am currently a nursing student and continuing to learn about nursing. During my clinical experiences, I enjoyed working with Cardio Pulmonary, Post surgical, and Rehab patients. I would love to continue to work with Rehab patients or at the Heart and Vascular Institute.

While at Lakeview College of Nursing, I have worked hard to learn and retain as much coursework information as possible. While at clinicals, I have been able to experience most hospital departments. This has better prepared me for a position in the hospital setting because I have only worked in nursing home settings since I started my health care career in 2002. I have worked in long term care as a C.N.A, a LPN floor nurse, wound care nurse, and MDS/Care Plan coordinator. I have been in a supervisor position as a Reimbursement Specialist for the last nine years with Petersen Health Care, where I have worked for the last ten years.

I have learned much while working, including communicating with my residents, their physicians, and their families on their care needs and ideas to make their stay better. I have also learned how to communicate with various members of the interdisciplinary team as well as corporate leadership and attorneys.

I have learned a lot at clinical, and in my current leadership role as a Reimbursement Specialist, which I will carry to my future career. I enjoy learning new things and growing as a nurse. I am excited at the possibility of joining Carle Hospital and providing excellent care to my patients.

I look forward to hearing from you and joining your team.

Sincerely,

Jessica Warren
