

#### Foundations of Professional Nursing Goals:

I will keep practicing how to properly protect myself and others before I enter into the clinical stage

I will receive an 85% or higher at the end of the semester as my final grade

#### Introduction to Professional Nursing Goals:

I will participate in class discussions the entire semester

I will learn how to use APA formatting before the end of the semester

#### Basic Health Assessment Goals:

I will check out on all the labs my first try the entire semester

I will do my best to look over the power points and review the chapter before each class the entire semester

#### Basic Concepts of Pathophysiology Goals:

I will learn about different diseases so I know how to help patients when I start clinicals

I will put to use the quizzes at the end of assignments that I struggled with to better understand the topic the entire semester
