

N321 Adult Health I

Clinical Reflection Form

Name: Ginaveve Jessup

Date: October 8, 2024

Mid Term Journal

1. Discuss how you are feeling so far in clinical?

I feel confident in making connections in the client's diagnosis, labs, history, and physical assessment, which is within my previous education.

2. What have been good experiences?

I enjoyed being down in surgery and learning from the anesthesiologists, nurses, surgical techs, and doctors.

3. Have there been any bad experiences? Could be you nervous about a skill or communication?

I do not think I have had a bad experience, but I have been nervous to give medications (IV medication), even though the nurse is paying attention, I don't want to do it wrong and hurt the client.

4. Do you need to talk with anyone in private to discuss clinical?

Not right now.

5. Is there anything else you would like to mention?

Not in this moment.
