

N321 Adult Health I
Clinical Reflection Form

Name: Tirae Littles

Date: 10/7/24

Mid Term Journal

1. Discuss how you are feeling so far in clinical?

Clinical thus-far has been ok. This nursing student is excited about learning new things with different patients and their disease processes.

2. What have been good experiences?

This nursing student had her best experiences in the ER. While being in the ER, this nursing student completed an IV and multiple EKGS. This nursing student always has good experiences when it comes to learning. Precepting in the ER gave this nursing student an opportunity to learn and reflect to the information that was learned in lecture.

3. Have there been any bad experiences? Could you be nervous about a skill or communication?

This nursing student hasn't had any bad experiences. This nursing student did want to have more hands-on experience while on the ACU, but it was still a good learning experience. This nursing student was unsure about what occurs on the ACU floor, but she was able to get a better understanding while on the unit.

4. Do you need to talk with anyone in private to discuss clinical?

This nursing student doesn't have any issues or complaints regarding clinical.

5. Is there anything else you would like to mention?

This nursing student would like to thank her clinical instructor and class professor for being attentive and encouraging throughout the semester.
