

N321 Adult Health I

Clinical Reflection Form

Name: Taylor Spelman

Date: 10/9/24

Mid Term Journal

1. Discuss how you are feeling so far in clinical?
 - a. Clinical has been going good so far. I have been able to perform skills I have learned, and it has made me feel more confident and comfortable. All the healthcare workers that I have encountered have super helpful and are willing to help and teach me. They also are always giving me advice and feedback to help in the future.

2. What have been good experiences?
 - a. Everyone that I have been with to do clinical rotations with have been super helpful. I enjoy getting to perform different skills and get the feel for them in the real setting. Most patients are also very kind and will let me as the student nurse give them their meds which has been nice.

3. Have there been any bad experiences? Could be you arrvous about a skill or communication?
 - a. Luckily, I have not had any bad experiences during clinical rotation so far.

4. Do you need to talk with anyone in private to discuss clinical?
 - a. No, I do not need to talk with anyone in private to discuss clinical.

5. Is there anything else you would like to mention?
 - a. I appreciate all the help and feedback that has been giving to me to help me succeed in the future.
