

# Individual Performance Profile

## RN Learning System Communication Final Quiz

Individual Name: **ARIAN DODGE**  
Student Number: **8275638**  
Institution: **Lakeview CON**  
Program Type: **BSN**  
Test Date: **10/9/2024**

Individual Score: **90.0%**  
Practice Time: **6 min**

### Individual Performance in the Major Content Areas

| Sub-Scale              | #     | #      | Individual | Individual Score (% Correct) |    |    |    |    |    |    |    |    |    |     |
|------------------------|-------|--------|------------|------------------------------|----|----|----|----|----|----|----|----|----|-----|
|                        | Items | Points | Score      | 1                            | 10 | 20 | 30 | 40 | 50 | 60 | 70 | 80 | 90 | 100 |
| Therapeutic Techniques | 20    | 20     | 90.0%      |                              |    |    |    |    |    |    |    |    |    | ▲   |

### Topics To Review

#### Therapeutic Techniques (2 items)

Therapeutic Communication: Consensual Validation

Therapeutic Communication: Encouraging a Client Who is Self-Injecting a Medication

### Outcomes

| Nursing Process                                           | No of Points | Individual Score | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------------------------|--------------|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Analysis/Diagnosis (RN 1213)                              | 1            | 100.0%           | Ability to analyze collected data and to reach an appropriate nursing judgment about the client's health status and coping mechanisms, specifically recognizing data indicating a health problem/risk and identifying the client's needs for health intervention. Also includes the ability to formulate appropriate nursing diagnoses/collaborative problems based on identified client needs.                                                                                                    |
| Planning (RN 1213)                                        | 1            | 100.0%           | Ability to apply nursing knowledge to the development of an appropriate plan of care for clients with specific health alterations or needs for health promotion/maintenance. Includes the ability to establish priorities of care, effectively delegate client care, and set appropriate client goals/outcomes in order to ensure clients' needs are met.                                                                                                                                          |
| Implementation/Therapeutic Nursing Intervention (RN 1213) | 18           | 88.9%            | Ability to select/implement appropriate interventions (e.g., technical skill, client education, communication response) based on nursing knowledge, priorities of care, and planned goals/outcomes in order to promote, maintain, or restore a client's health. Also includes the ability to appropriately respond to an unplanned event (e.g., observation of unsafe practice, change in client status) or life-threatening situation and to routinely take measures to minimize a client's risk. |

| Priority Setting | No of Points | Individual Score | Description                                                                                                                                                                                                        |
|------------------|--------------|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                  | 1            | 100.0%           | Ability to demonstrate nursing judgment in making decisions about priority responses to a client problem. Also includes establishing priorities regarding the sequence of care to be provided to multiple clients. |

| Thinking Skills      | No of Points | Individual Score | Description                                                                                                        |
|----------------------|--------------|------------------|--------------------------------------------------------------------------------------------------------------------|
| Clinical Application | 20           | 90.0%            | The ability to apply nursing knowledge to a clinical situation. Incorporates Blooms Taxonomy category of Applying. |

| NCLEX®                         | No of Points | Individual Score | Description                                                                                                                                                      |
|--------------------------------|--------------|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Management of Care RN 2013     | 1            | 100.0%           | Providing integrated, cost-effective care to clients by coordinating, supervising, and/or collaborating with members of the multi-disciplinary health care team. |
| Psychosocial Integrity RN 2013 | 19           | 89.5%            | Promoting mental, emotional, and social well-being of clients and significant others through the provision of nursing care.                                      |

| QSEN                       | No of Points | Individual Score | Description                                                                                                                                                                                           |
|----------------------------|--------------|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Patient-Centered Care      | 19           | 89.5%            | The provision of caring and compassionate, culturally sensitive care that is based on a patient's physiological, psychological, sociological, spiritual, and cultural needs, preferences, and values. |
| Teamwork and Collaboration | 1            | 100.0%           | The delivery of client care in partnership with multidisciplinary members of the health care team, to achieve continuity of care and positive client outcomes.                                        |
