

Individual Performance Profile

RN Comprehensive Online Practice 2019 A with NGN

Individual Name:	AMANDA M JOHNSON	Individual Score:	63.6%
Student Number:	7412791	Practice Time:	2 hr 38 min
Institution:	Lakeview CON	Focused Review Time	32 min
Program Type:	BSN	Focused Review Quiz Result	33/41
Test Date:	11/4/2024		

Individual Performance in the Major Content Areas				Individual Score (% Correct)										
Sub-Scale	# Items	# Points	Individual Score	1	10	20	30	40	50	60	70	80	90	100
Management of Care	30	34	55.9%							▲				
Safety and Infection Control	18	21	76.2%									▲		
Health Promotion and Maintenance	14	14	64.3%							▲				
Psychosocial Integrity	13	17	88.2%										▲	
Basic Care and Comfort	13	16	68.8%								▲			
Pharmacological and Parenteral Therapies	23	31	61.3%							▲				
Reduction of Risk Potential	18	33	60.6%							▲				
Physiological Adaptation	21	62	58.1%							▲				

Topics To Review

Management of Care (13 items)

Advance Directives/Self-Determination/Life Planning (2 items)

- Legal Responsibilities: Responding to a Client's Wishes for a Living Will(Active Learning Template: Basic Concept)
- Professional Responsibilities: Providing Information to a Client About Advance Directives(Active Learning Template: Basic Concept)

Assignment, Delegation and Supervision (4 items)

- Managing Client Care: Appropriate Assignment for Assistive Personnel(Active Learning Template: Basic Concept)
- Managing Client Care: Delegating Client Care Tasks to a Staff Member(Active Learning Template: Basic Concept)
- Managing Client Care: Delegating to a Licensed Practical Nurse(Active Learning Template: Nursing Skill)
- Managing Client Care: Evaluating Time Management Skills(Active Learning Template: Basic Concept)

Case Management (1 item)

- Caring for a Client Who Has a Psychobiological Disorder (Active Learning Template: System Disorder)

Advocacy (1 item)

- Professional Responsibilities: Priority Action for Suspected Negligence(Active Learning Template: Basic Concept)

Continuity of Care (1 item)

- Information Technology: Priority Information to Include in Change-of-Shift Report(Active Learning Template: Basic Concept)

Confidentiality/Information Security (1 item)

Topics To Review

Professional Responsibilities: Nurse's Role Regarding Confidentiality of Client Information(Active Learning Template: Basic Concept)

Collaboration with Interdisciplinary Team (1 item)

Grief, Loss, and Palliative Care: Educating Staff Nurses About Organ Donation (Active Learning Template: Basic Concept)

Performance Improvement (Quality Improvement) (1 item)

Managing Client Care: Priority Action When Implementing Change(Active Learning Template: Basic Concept)

Establishing Priorities (1 item)

Diagnostic and Therapeutic Procedures for Female Reproductive Disorders: Prioritizing Postoperative Client Care(Active Learning Template: Basic Concept)

Safety and Infection Control (5 items)

Emergency Response Plan (1 item)

Emergency Preparedness: Nursing Responsibilities When Implementing a Disaster Management Plan(Active Learning Template: Basic Concept)

Accident/Error/Injury Prevention (2 items)

Actions to Take to Maintain Client Safety(Active Learning Template: System Disorder)

Home Safety: Planning Care for an Older Adult Client Who Has Impaired Vision(Active Learning Template: Basic Concept)

Handling Hazardous and Infectious Materials (1 item)

Infection Control: Hazardous Material Incidents(Active Learning Template: Basic Concept)

Standard Precautions/Transmission-Based Precautions/Surgical Asepsis (1 item)

Epidemiology and Communicable Diseases: Identifying Reportable Diseases(Active Learning Template: Basic Concept)

Health Promotion and Maintenance (5 items)

Ante/Intra/Postpartum and Newborn Care (3 items)

Client Education and Discharge Teaching: Instructions for Managing Engorgement(Active Learning Template: Basic Concept)

Expected Physiological Changes During Pregnancy: Responding to a Client About Constipation(Active Learning Template: Basic Concept)

Labor and Delivery Processes: Indications of True Labor(Active Learning Template: Basic Concept)

Health Promotion/Disease Prevention (2 items)

Burns: Evaluating Guardians' Understanding of Child Safety Measures(Active Learning Template: Basic Concept)

Planning Education on Prevention of Urinary Tract Infections(Active Learning Template: System Disorder)

Psychosocial Integrity (2 items)

Mental Health Concepts (2 items)

Bipolar Disorders: Expected Findings of the Manic Phase (Active Learning Template: System Disorder)

Planning Care for a Client Who Is Experiencing Alcohol Withdrawal (Active Learning Template: System Disorder)

Basic Care and Comfort (5 items)

Elimination (2 items)

Bowel Elimination: Providing Stoma Care(Active Learning Template: Nursing Skill)

Urinary Elimination: Performing a Catheterization for a Client Who Has Urinary Retention(Active Learning Template: Nursing Skill)

Mobility/Immobility (1 item)

Musculoskeletal Trauma: Priority Finding for a Client Who Has a Fiberglass Leg Cast(Active Learning Template: Therapeutic Procedure)

Nutrition and Oral Hydration (1 item)

Multiple Sclerosis: Dietary Teaching for a Client Who Has Multiple Sclerosis(Active Learning Template: System Disorder)

Non-Pharmacological Comfort Interventions (1 item)

Pain Management: Visualization Techniques(Active Learning Template: Basic Concept)

Topics To Review

Pharmacological and Parenteral Therapies (10 items)

Adverse Effects/Contraindications/Side Effects/Interactions (4 items)

- Caring for a Client Who Has Schizophrenia(Active Learning Template: Medication)
- Identifying Findings to Report to the Provider(Active Learning Template: System Disorder)
- Medications Affecting the Reproductive Tract: Teaching About Estradiol (Active Learning Template: Medication)
- Medications for Anxiety and Trauma- and Stressor-Related Disorders: Intervention for Lorazepam Overdose(Active Learning Template: Medication)

Medication Administration (4 items)

- Chemotherapy Agents: Administering Cyclophosphamide(Active Learning Template: Medication)
- Medications Affecting Cardiac Rhythm: Teaching About Manifestations of Digoxin Toxicity(Active Learning Template: Medication)
- Nursing Care of Newborns: Vitamin K Administration Following Birth(Active Learning Template: Medication)
- Opioid Agonists and Antagonists: Teaching About Methadone(Active Learning Template: Medication)

Expected Actions/Outcomes (1 item)

- Medications for Bipolar Disorders: Priority Finding for a Client Taking Lithium Carbonate(Active Learning Template: Medication)

Dosage Calculation (1 item)

- Dosage Calculation: Administering Heparin Subcutaneously(Active Learning Template: Basic Concept)

Reduction of Risk Potential (9 items)

Laboratory Values (1 item)

- Priority Findings for a Client Who Has Received Chemotherapy(Active Learning Template: System Disorder)

System Specific Assessments (1 item)

- Identifying Complications of a Spinal Cord Injury(Active Learning Template: System Disorder)

Potential for Alterations in Body Systems (2 items)

- Identifying Manifestations of Inadequate Breastfeeding(Active Learning Template: Basic Concept)
- Nursing Actions to Promote Venous Circulation(Active Learning Template: System Disorder)

Potential for Complications of Diagnostic Tests/Treatments/Procedures (1 item)

- Reporting Preoperative Assessment Findings to the Provider(Active Learning Template: Basic Concept)

Therapeutic Procedures (2 items)

- Airway Management: Providing Parent Teaching About Tracheostomy Care(Active Learning Template: Nursing Skill)
- Disorders of the Eye: Evaluating Teaching Following Cataract Extraction(Active Learning Template: Therapeutic Procedure)

Potential for Complications from Surgical Procedures and Health Alterations (2 items)

- Hematologic Disorders: Manifestations of Vaso-Occlusive Crisis(Active Learning Template: System Disorder)
- Prioritizing Assessments for a Newborn(Active Learning Template: Basic Concept)

Physiological Adaptation (14 items)

Alterations in Body Systems (4 items)

- Caring for a Client Who Is Experiencing Abdominal Pain and Vaginal Bleeding at 33 Weeks of Gestation(Active Learning Template: System Disorder)
- Caring for an Adolescent Who Has a Fever(Active Learning Template: System Disorder)
- Postoperative Nursing Care: Priority Action to Promote Ambulation(Active Learning Template: Basic Concept)
- Postpartum Disorders: Priority Action for Boggy Uterus(Active Learning Template: System Disorder)

Pathophysiology (2 items)

- Head and Neck: Planning Care for a Client Who Has a Cranial Nerve II Deficit(Active Learning Template: Basic Concept)
- Identifying Assessment Findings to Report to the Provider(Active Learning Template: System Disorder)

Unexpected Response to Therapies (1 item)

Topics To Review

Identifying Complications During Transfusion of Packed Red Blood Cells(Active Learning Template: Therapeutic Procedure)

Medical Emergencies (3 items)

Heart Failure and Pulmonary Edema: Expected Findings for a Client Who Has Cardiac Tamponade(Active Learning Template: System Disorder)

Nursing Care of a Child Who Has an Acute Respiratory Illness(Active Learning Template: System Disorder)

Spinal Cord Injury: Manifestations of Autonomic Dysreflexia(Active Learning Template: System Disorder)

Illness Management (4 items)

Acute and Chronic Gastritis: Performing Gastric Lavage(Active Learning Template: Nursing Skill)

Characteristics of Hepatitis(Active Learning Template: System Disorder)

Evaluating Outcomes That Indicate Effectiveness of Treatment(Active Learning Template: System Disorder)

Identifying Findings That Require Immediate Follow-Up(Active Learning Template: Basic Concept)

Outcomes

Nursing Process	No of Points	Individual Score	Description
RN Assessment	22	63.6%	The assessment step of the nursing process involves application of nursing knowledge to the collection, organization, validation and documentation of data about a client's health status. The nurse focuses on the client's response to a specific health problem including the client's health beliefs and practices. The nurse thinks critically to perform a comprehensive assessment of subjective and objective information. Nurses must have excellent communication and assessment skills in order to plan client care.
RN Analysis/Diagnosis	77	70.1%	The analysis step of the nursing process involves the nurse's ability to analyze assessment data to identify health problems/risks and a client's needs for health intervention. The nurse identifies patterns or trends, compares the data with expected standards or reference ranges and draws conclusions to direct nursing care. The nurse then frames nursing diagnoses in order to direct client care.
RN Planning	36	58.3%	The planning step of the nursing process involves the nurse's ability to make decisions and problem solve. The nurse uses a client's assessment data and nursing diagnoses to develop measurable client goals/outcomes and identify nursing interventions. The nurse uses evidenced based practice to set client goals, establish priorities of care, and identify nursing interventions to assist the client to achieve his goals.
RN Implementation/Therapeutic Nursing Intervention	79	58.2%	The implementation step of the nursing process involves the nurse's ability to apply nursing knowledge to implement interventions to assist a client to promote, maintain, or restore his health. The nurse uses problem-solving skills, clinical judgment, and critical thinking when using interpersonal and technical skills to provide client care. During this step the nurse will also delegate and supervise care and document the care and the client's response.
RN Evaluation	14	71.4%	The evaluation step of the nursing process involves the nurse's ability to evaluate a client's response to nursing interventions and to reach a nursing judgment regarding the extent to which the client has met the goals and outcomes. During this step the nurse will also assess client/staff understanding of instruction, the effectiveness of interventions, and identify the need for further intervention or the need to alter the plan.

Priority Setting in Nursing	No of Points	Individual Score	Description
	37	70.3%	Ability to demonstrate nursing judgment in making decisions about priority responses to a client problem. Also includes establishing priorities regarding the sequence of care to be provided to multiple clients.

Thinking Skills	No of Points	Individual Score	Description
Foundational Thinking	13	69.2%	The ability to comprehend information and concepts. Incorporates Blooms Taxonomy categories of Remembering and Understanding.
Clinical Application	108	63.9%	The ability to apply nursing knowledge to a clinical situation. Incorporates Blooms Taxonomy category of Applying.
Clinical Judgment	107	62.6%	The ability to analyze and interpret elements of a clinical situation to make a decision and respond appropriately. Incorporates Blooms Taxonomy categories of Analyzing and Evaluating.

NCLEX®	No of Points	Individual Score	Description
RN Management of Care	34	55.9%	The nurse coordinates, supervises and/or collaborates with members of the health care to provide an environment that is cost-effective and safe for clients.
RN Safety and Infection Control	21	76.2%	The nurse uses preventive safety measures to promote the health and well-being of clients, significant others, and members of the health care team.
RN Health Promotion and Maintenance	14	64.3%	The nurse directs nursing care to promote prevention and detection of illness and support optimal health.
RN Psychosocial Integrity	17	88.2%	The nurse directs nursing care to promote and support the emotional, mental and social well-being of clients and significant others.
RN Basic Care and Comfort	16	68.8%	The nurse provides nursing care to promote comfort and assist client to perform activities of daily living.
RN Pharmacological and Parenteral Therapies	31	61.3%	The nurse administers, monitors and evaluates pharmacological and parenteral therapy.
RN Reduction of Risk Potential	33	60.6%	The nurse directs nursing care to decrease clients' risk of developing complications from existing health disorders, treatments or procedures.
RN Physiological Adaptation	58	55.2%	The nurse manages and provides nursing care for clients with an acute, chronic or life threatening illness.

Clinical Areas	No of Points	Individual Score	Description
Fundamentals	13	53.8%	Ability to apply fundamental nursing principles and skills to basic needs of clients. Topics include foundational client care concepts (ie: medical and surgical asepsis, infection control, physical assessment, therapeutic communication, medication administration, pain management integral to the delivery of safe, ethical, and legal nursing practice.
Adult Medical-Surgical	68	57.4%	Ability to apply medical-surgical nursing knowledge to clinical problems experienced by adults. Topics include care of clients with cardiovascular, hematologic, gastrointestinal, neurosensory, endocrine, fluid and electrolyte, integumentary, lymph/immune/infectious, renal and urinary, musculoskeletal, reproductive, and respiratory disorders as well as topics relevant to perioperative nursing care and emergency care/triage.
Maternal Newborn	26	57.7%	Ability to apply nursing knowledge to perinatal nursing care. Topics include antepartum, intrapartum, and postpartum nursing care as well as care of the newborn.
Mental Health	38	71.1%	Ability to apply nursing knowledge to the care of clients with mental health disorders. Topics include foundational mental health concepts (e.g., therapeutic communication, therapeutic milieu, legal/ethical issues), care of clients experiencing psychobiologic disorders or psychiatric emergencies, and care of clients receiving traditional nonpharmacological and psychopharmacological therapies.
Pediatric Nursing	42	66.7%	Ability to apply nursing knowledge to clinical problems experienced by children. Topics include basic concepts (e.g., medication administration, physical assessment, nutritional needs), care of children with various system disorders, care of children experiencing pediatric emergencies (e.g., accidental poisoning, respiratory arrest), and care of children with psychosocial disorders.
Leadership	22	63.6%	Ability to manage the care of a caseload of clients and nursing care team while using principles of management and supervision. Topics include leadership skills (ie: interdisciplinary collaboration, advocacy, prioritization, delegation), performance improvement, continuity of client care, and principles of case management while ensuring safe client care and efficient utilization of human and material resources.
Community Health	6	66.7%	Ability to apply concepts related to public and community health. Topics include primary, secondary, and tertiary interventions, health screening, health related education, home health and injury prevention, disaster planning, and cultural diversity.
Pharmacology	7	71.4%	Ability to apply concepts related to the pharmacodynamics and pharmacotherapeutics of commonly prescribed medications for clients with physical and mental health disorders. Topics include principles of medication administration and dosage calculation, side/adverse effects, drug/food interactions, contraindications, and nursing implications integral to the safe administration of medications to clients across the lifespan.
Nutrition	5	100.0%	Ability to apply nursing knowledge to normal nutrition and diet therapy. Topics include the collection of data regarding nutritional status; implementation of actions to promote normal nutrition or dietary modification in response to illness; and evaluation of the client's response to diet therapy.

QSEN	No of Points	Individual Score	Description
Safety	43	65.1%	The minimization of risk factors that could cause injury or harm while promoting quality care and maintaining a secure environment for clients, self, and others.
Patient-Centered Care	29	58.6%	The provision of caring and compassionate, culturally sensitive care that is based on a patient's physiological, psychological, sociological, spiritual, and cultural needs, preferences, and values.
Evidence Based Practice	138	64.5%	The use of current knowledge from research and other credible sources to make clinical judgments and provide client-centered care.
Quality Improvement	3	66.7%	Care-related and organizational processes that involve the development and implementation of a plan to improve health care services and better meet the needs of clients.
Teamwork and Collaboration	15	60.0%	The delivery of client care in partnership with multidisciplinary members of the health care team, to achieve continuity of care and positive client outcomes.

NLN Competency	No of Points	Individual Score	Description
Human Flourishing	20	50.0%	Human flourishing is reflected in patient care that demonstrates respect for diversity, approaches patients in a holistic and patient-centered manner, and uses advocacy to enhance their health and well-being.
Nursing Judgment	168	66.1%	Nursing judgment involves the use of critical thinking and decision making skills when making clinical judgments that promote safe, quality patient care.
Professional Identity	24	62.5%	Professional identity reflects the professional development of the nurse as a member and leader of the health care team who promotes relationship-centered care, and whose practice reflects integrity and caring while following ethical and legal guidelines.
Spirit of Inquiry	16	56.3%	A spirit of inquiry is exhibited by nurses who provide evidence based clinical nursing practice and use evidence to promote change and excellence.

BSN Essentials	No of Points	Individual Score	Description
Liberal Education for Baccalaureate Generalist Nursing Practice	12	58.3%	The need for an education that exposes nurses to multiple fields of study providing the foundation for a global perspective of society as well as high level thinking and acquisition of skills that can be applied to complex patient and system-based problems.
Basic Organization and Systems Leadership for Quality Care and Patient Safety	10	70.0%	The need for nurses to be able to understand power relationships and use decision-making and leadership skills to promote safe practice and quality improvement within health care systems.
Scholarship for Evidence-Based Practice	129	65.1%	The need for nurses to be able to understand the research process and base practice and clinical judgments upon fact-based evidence to enhance patient outcomes.
Healthcare Policy, Finance, and Regulatory Environments	1	100.0%	The need for nurses to be able to understand the role of regulatory agencies in relation to the development of health care policies and their effect on patient care services, access to care, financial reimbursement, and scope of nursing practice.
Interprofessional Communication and Collaboration	5	80.0%	The need for nurses to be able to function as a member of the healthcare team while promoting an environment that supports interprofessional communication and collaboration with the goal of providing patient-centered care.
Clinical Prevention and Population Health	20	60.0%	The need for nurses to be able to identify health related risk factors and facilitate behaviors that support health promotion, and disease and injury prevention, while providing population-focused care that is based on principles of epidemiology and promotes social justice.
Professionalism and Professional Values	6	50.0%	The need for nurses to be able to practice nursing in a professional manner while providing patient-centered care that is caring, respects diversity, and is governed by legal and ethical tenets.
Baccalaureate Generalist Nursing Practice	45	60.0%	The need for nurses to be able to practice as a generalist using clinical reasoning to provide care to patients across the lifespan and healthcare continuum and to individuals, families, groups, communities, and populations.

Clinical Judgment	No of Points	Individual Score	Description
Recognize Cues	25	64.0%	Filter information from different sources (i.e., signs, symptoms, health history, environment). Identify relevant information related to the client's condition. Use knowledge, experience and evidence to assess clients. Use verbal, nonverbal, written, and electronic modes of communication. Recognize relevant subjective/objective client data. Identify subtle and apparent changes in client condition and related factors.
Analyze Cues	30	60.0%	Link recognized cues to a client's clinical presentation and establishing probable client needs, concerns, or problems. Compare client findings to evidence-based resources and standards of care. Analyze expected and unexpected findings in health data. Anticipate illness/injury and wellness progression. Identify client problems and related health alterations. Analyze client needs. Identify potential complications. Identify how pathophysiology relates to clinical presentation. Identify data that is of immediate concern.
Prioritize Hypotheses	6	83.3%	Establish priorities of care based on the client's health problems (i.e. environmental factors, risk assessment, urgency, signs/ symptoms, diagnostic test, lab values, etc.). Organize client assessment information according to changes, patterns and trends. Use standards of care and empirical frameworks for priority setting. Establish and prioritize client problems/needs based on the analysis of information and factors.

Generate Solutions	28	53.6%	Identify expected outcomes and related nursing interventions to ensure clients' needs are met. Collaborate with members of the interprofessional healthcare team to establish client outcomes and the plan of care. Collaborate with client and care partners to establish client outcomes and the plan of care. Identify optimal client outcomes based on information and factors. Identify evidence-based nursing actions to effectively address the clinical situation of the client's health problem. Prioritize plan of care to achieve optimal client outcomes. Prioritize nursing care when caring for multiple clients. Re-prioritize nursing actions as the client's condition changes. Modify a plan of care to assure achievement of optimal client outcomes when indicated. Determine the potential impact of selected interventions.
Take Actions	15	80.0%	Implement appropriate interventions based on nursing knowledge, priorities of care, and planned outcomes to promote, maintain, or restore a client's health. Promptly and accurately perform nursing actions based on prioritized client problems. Implement a plan of care in collaboration with members of the interprofessional health care team. Implement a plan of care in collaboration with the client and care partners. Accurately document client care data and information. Incorporate client preferences and needs when performing nursing actions. Provide education to the client and/or care partner(s) regarding their health condition and care management. Participate in coordination of care with the client and healthcare team. Monitor the client's response to interventions.
Evaluate Outcomes	3	33.3%	Evaluate a client's response to nursing interventions and reach a nursing judgment regarding the extent to which outcomes have been met. Reassess client condition to determine achievement of expected outcomes. Evaluate efficacy of nursing actions determine if client outcomes were met. Modify client outcomes and/or nursing actions based on the client's response and clinical findings when indicated. Update and revise the plan of care.

Score Explanation and Interpretation

Individual Performance Profile

INDIVIDUAL SCORE

The individual score is the number of questions answered correctly divided by the number of questions on the assessment. It is on a scale of 0% to 100%.

TOPICS TO REVIEW

Based on the questions missed on this assessment, a listing of content areas and topics to review is provided. A variety of learning resources can be used in the review process, including content, images, animations and videos in ATI's Content Mastery Series® Review Modules, online practice assessments, and a focused review that is individualized to the questions missed.
