Individual Performance Profile
Respiratory 3.0 Test

Individual Name:	**SHIANN MANINT**	
Student Number:	**MA9947219**	
Institution:	**Lakeview CON**	
Program Type:	**BSN**	
Test Date:	**3/1/2025**	

Individual Score:	**70.0%**
Practice Time:	**22 min**

Individual Performance on the Learning Objectives

Sub-Scale	# Items	# Points	Individual Score	Individual Score (% Correct)
Assessment details, health history interview, health promotion, and documentation	6	12	91.7%	▲ (~90)
Preliminary stats and breath sounds	7	13	61.5%	▲ (~60)
Anterior, posterior, and lateral chest	5	5	40.0%	▲ (~40)

Individual Score (% Correct) scale: 1 10 20 30 40 50 60 70 80 90 100

Topics To Review - Incorrect

Assessment details, health history interview, health promotion, and documentation (1 item)

Health Promotion: Teaching a Client About Smoking Cessation

Anterior, posterior, and lateral chest (3 items)

Anterior Chest: Evaluating Auscultation Technique

Anterior Chest: Identifying Cheyne-Stokes Breathing

Posterior and Lateral Chest: Performing Auscultation

Preliminary stats and breath sounds (4 items)

Breath Sounds: Describing a Pleural Friction Rub

Breath Sounds: Identifying Respiratory Wheezes

Breath Sounds: Identifying the Location of Bronchial Breath Sounds

Preliminary Stats: Manifestations of Hyperventilation

Topics To Review - Correct

Assessment details, health history interview, health promotion, and documentation (5 items)

Health History Interview: Identifying Subjective and Objective Data

Health Promotion: Teaching About the Influenza Vaccine

Overview: Assessing for Adequate Oxygenation

Providing Client Education about Tobacco Smoking

Summary: Evaluating Documentation

Anterior, posterior, and lateral chest (2 items)

Anterior Chest: Identifying a Barrel Chest

Posterior and Lateral Chest: Identifying a Pneumothorax

Preliminary stats and breath sounds (3 items)

Breath Sounds: Priority Actions for a Client Who Is Having Difficulty Breathing

Preliminary Stats: Evaluating Understanding of Manifestations of Decreased Oxygenation

Preliminary Stats: Identifying Findings That Indicate Respiratory Difficulty
