Individual Performance Profile

Individual Name: Hazelyn Hunter

Student Number: 8275636

Institution: Lakeview CON

Program Type: BSN

Please note that time spent on your Individual Performance Profile reflects only conversations fully completed.

Time Use and Score

Virtual Interaction: Client care through telehealth	Date	Time Spent	Score(Points)
— Practice: Lisa	08/22/2025	20:40	Complete

Scenario

Lisa was diagnosed five years ago with Type 2 diabetes mellitus and often forgets to take her medication. Discuss her health concerns and help her develop a diabetes management plan.

Overall Engagement

Overall Engagement

0 of 0

Selected option:
Overall, you could have taken additional actions to motivate Lisa.

Rationale:
Lisa felt a little discouraged by her visit and then got caught up in the demands of her daily life. By the time Lisa showed up for her next appointment, she hadn't managed to keep up with her plan, and her HbA1c levels remained the same as before.

Communication Technique Feedback:

Points on technique separate from overall points

0 of 0 pts

Rationale:
No additional feedback available for this conversation.

Scenario

Gregory was diagnosed with cardiovascular disease and underwent angioplasty after a myocardial infarction. Discuss how he can maintain or improve his health and help him find lifestyle changes that work for him.

Overall Engagement

Overall Engagement

0 of 0 points

Selected option:
Overall, you could have taken additional actions to motivate Gregory.

Rationale:
Gregory did not feel encouraged by talking with Ryan, and he remained ambivalent about any changes to his behavior. At his next appointment, he was not interested in following through with rehab and hadn't gotten much exercise, though he managed to stay smoke-free.

Communication Technique Feedback:

Points on technique separate from overall points

0 of 0 pts

Rationale:
No additional feedback available for this conversation.
