Clinical Reflections: #1, #2, #3, #4

See the grading rubric below:

1. How does this clinical site relate to Population/Global Health?
    a. The family medicine clinical site is serving as a preventative care and disease management in the community. Family Medicine helps people and social groups of all ages.
2. How were you an engaged nursing professional during this clinical experience?
    a. During my clinical time at this site, I demonstrated professionalism. I was asking questions on patients and the nurses role in the Family Medicine clinic.
3. How did you or could you contribute to the service of the community through this clinical site?
    a. I contributed by giving a vaccination to a client. I also contributed by handing out education to that same vaccine to the client and having a conversation about it.
4. Name 3 ways this clinical site impacts community health?
    a. This site impacts community health by being a resource for the community it serves, being a primary point of access for healthcare, and being a hub for continuing care and education for chronic diseases.
5. Name 1 way this clinical site could better serve the community and why?
    a. I believe this clinical site can better serve the community by having more availability. While observing the nurse triage patients, she was not able to get to all of the patients who wanted in for appointments or needed to have a medication refill. The site needs to have a couple more providers as well to better serve the population and community.
6. What health risks are experienced by the population served by this clinical site?
    a. Infectious diseases
    b. Chronic disease
    c. Lifestyle-related conditions
7. This clinical site was informative and introduced me to a unit I would be happy to work on once I am an experienced nurse in the hospital. I can see myself working as a nurse practitioner in a family medicine clinic serving the community.
