

Clinical Reflections: Legacy Project, Windshield Survey/Community Assessment

See the grading rubric below:

1. How does this project relate to Population/Global Health?

This project related to the population/global health by getting to learn about the community. This project helped me realize things about the town that I never thought of before. It also helped me think deeper about the environment as well.

2. How were you an engaged nursing professional during this project?

One way that I was an engaged nursing professional during this today was by interviewing people in the community. I was able to ask these people questions and learn more about the town.

3. How did you contribute to the service of the community with this project?

I was able to contribute to the service of this community by going around it and observe the resources, environment, and conditions. We were able to look at things and see all of the different conditions of them and how these things should be fixed up and could potentially be a risk.

4. Name 3 ways this project site impacts community health?

This project can impact the community health very much. The first way was raising awareness to things that are rising issues within the town. The next is finding ways that could better this community and how the people were making this happen. The last one is seeing what opportunities this town has and what they can do to help people in need.

5. Name 1 way this project site could better serve the community and why?

This project site can better serve the community by raising awareness of the issues and what can be done to fix them. One example would be the conditions of the roads and how the maintenance of these could cause risks.

6. What health risks are experienced by the population served by this project site?

A health risk that is experienced by the population is low income and crime. The low income could then cause struggles with being able to provide

for their families. Another risk would be the number of bars and how so many people go to them daily.
