

Clinical Reflections: Windshield Survey/Community Assessment

See the grading rubric below:

1. How does this project relate to Population/Global Health?
 - a. This project relates to population and global health by collecting and analyzing data to understand the community's health needs and resources. Identifying risk factors is essential in contributing to global health and county health. Observing the community can help nurses take appropriate interventions to improve the community.
2. How were you an engaged nursing professional during this project?
 - a. I communicated effectively and respectfully with the community stakeholders.
 - b. I observed the resources the community has access to.
 - c. I identified the risks and benefits of living within the community.
3. How did you contribute to the service of the community with this project?
 - a. Identifying needs
 - b. Identifying availability
 - c. Identifying food and safe water
 - d. Identifying transportation
 - e. Identifying continuing education
4. Name 3 ways this project site impacts community health.
 - a. Observing and identifying community resources.
 - b. Communicating the community's resources to them directly
 - c. Knowing what issues to verbalize to the city hall to make changes
5. Name 1 way this project site could better serve the community and why?
 - a. I believe this project site could benefit the community by providing a volunteer opportunity in conjunction with the community project. Volunteering will help the community directly by observing. Also, by volunteering, you can communicate and socialize with the community you are observing.
6. What health risks are experienced by the population served by this project site?
 - a. Possible high levels in the water.
 - b. Chlorine leak.
 - c. Motor vehicle accidents from the location on Route 1
