Module Report

Simulation: Skills Modules 3.0

Module: Virtual Scenario: Pain assessment

Individual Name: **Laura Duncan**

Institution: **Lakeview CON**

Program Type: **BSN**

Time Use And Score

	Date	Time
Virtual Scenario: Pain assessment	9/20/2025	16 min

Simulation

Scenario	In this virtual simulation, you cared for Amy Jenkins who was admitted to an acute care facility to receive treatment for left flank pain. The goal was to perform a pain assessment and intervene based on the client's needs. Review your results below to determine how your performance aligned with the goals of the simulation.	
Overall Performance	Congratulations! You met the requirements to complete this virtual skills scenario.	**Score:** 100%
Essential Activities	**Client-centered Care** Congratulations! You have demonstrated a thorough understanding of pain assessment and related nursing interventions needed to complete this virtual skills scenario in client-centered care. **Evidence-Based Practice** Congratulations! You have demonstrated a thorough understanding of evidence-based practice related to client pain. **Safety Factors and Infection Control** Congratulations! You have demonstrated a thorough understanding of safety and infection control interventions to optimize client outcomes.
