

# Individual Performance Profile

## RN The Surgical Client Assessment 2.0

Individual Name: **SAMANTHA GARCIA**  
 Student Number: **GA1241051**  
 Institution: **Lakeview CON**  
 Program Type: **BSN**  
 Test Date: **9/20/2025**

Individual Score: **96.0%**  
 Practice Time: **4 min**

### Individual Performance on the Learning Objectives

| Sub-Scale                                                                  | #<br>Items | #<br>Points | Individual<br>Score | Individual Score (% Correct) |    |    |    |    |    |    |    |    |    |     |
|----------------------------------------------------------------------------|------------|-------------|---------------------|------------------------------|----|----|----|----|----|----|----|----|----|-----|
|                                                                            |            |             |                     | 1                            | 10 | 20 | 30 | 40 | 50 | 60 | 70 | 80 | 90 | 100 |
| Explain preoperative nursing care responsibilities.                        | 5          | 5           | 100.0%              |                              |    |    |    |    |    |    |    |    |    | ▲   |
| Discuss surgical risk factors and potential complications.                 | 5          | 5           | 100.0%              |                              |    |    |    |    |    |    |    |    |    | ▲   |
| Describe components of the intraoperative surgical phase.                  | 5          | 5           | 80.0%               |                              |    |    |    |    |    |    |    | ▲  |    |     |
| Explore the role of the nurse when caring for the postoperative client.    | 5          | 5           | 100.0%              |                              |    |    |    |    |    |    |    |    |    | ▲   |
| Discuss safety considerations when providing care for the surgical client. | 5          | 5           | 100.0%              |                              |    |    |    |    |    |    |    |    |    | ▲   |

## Topics To Review - Incorrect

### Explore the role of the nurse when caring for the postoperative client.

No remediation material

### Explain preoperative nursing care responsibilities.

No remediation material

### Describe components of the intraoperative surgical phase. (1 item)

Preparing a Client's Skin for Surgery

### Discuss surgical risk factors and potential complications.

No remediation material

### Discuss safety considerations when providing care for the surgical client.

No remediation material

## Topics To Review - Correct

### Explore the role of the nurse when caring for the postoperative client. (5 items)

Identifying Manifestations of an Infection

Identifying Postoperative Manifestations of Bleeding

Identifying Postoperative Priority Action

Interventions to Treat a Client's Distended Bladder

Planning Interventions for Postoperative Care

### Explain preoperative nursing care responsibilities. (5 items)

Benefits of Preoperative Teaching

Developing a Plan to Manage a Client's Perioperative Pain

Identifying Postoperative Complications for a Client Who Has a History of Regular Tobacco Use

Nurse's Responsibility When Obtaining Informed Consent

Preoperative Information to Gather From a Client

### Describe components of the intraoperative surgical phase. (4 items)

Identifying Types of Anesthesia

Surgical Attire

Surgical Team Member Responsible for Ensuring Tools are Sterile and Ready to Use

When to Perform a Time-Out Procedure

### Discuss surgical risk factors and potential complications. (5 items)

Assessing a Postoperative Client's Surgical Wound

Determining Risk Factors for Poor Wound Healing

Interventions to Reduce the Risk of Postoperative Thromboembolism (VTE)

Recognizing Postoperative Complications Following Abdominal Surgery

Recognizing Postoperative Complications Following Surgery

### Discuss safety considerations when providing care for the surgical client. (5 items)

Actions to Take While Assisting a Client Who Has Had Trouble Swallowing Prepare a Meal

Identifying Postoperative Complications That Can Increase a Client's Risk for Pneumonia

Identifying Priority Finding Prior to Discharge

Monitoring for Dysphagia Risks in a Postsurgical Client

Risks for Postoperative Complications for a Client Who Has Dementia
