Time Use And Score

	Date	Time
Virtual Application: Deion Barnes - Simulation	09/23/2025	13 min

Simulation

Scenario	In this virtual simulation, you cared for Deion Barnes. The goal was to complete a focused head, neck, and neurological assessment. Review your results below to determine how your performance aligned with the goals of this simulation.	
Overall Performance	You met the requirements to complete this virtual health assessment scenario.	Score: 87.3%
Essential Actions	<p>Required actions - 14 of 16 correctly selected</p> <p>You have demonstrated a basic understanding of the required actions to complete a focused health assessment based on this client's health status. You demonstrated an understanding of the following required actions: communicating with the client to elicit additional information, palpating the head and neck.</p> <p>Spend time reviewing:</p> <ul style="list-style-type: none"> Inspecting facial expressions When to sanitize hands when completing client care <p>Interactive actions - 1 of 1 performed correctly</p> <p>You demonstrated a thorough understanding of assessment techniques within the focused health assessment based on this client's health status. You demonstrated an understanding of the following assessment techniques: inspecting the head and neck.</p>	

Essential Actions	<p>Expected/unexpected findings - 5 of 6 correctly identified</p> <p>You demonstrated a basic understanding of the expected and unexpected findings from the focused health assessment based on this client's health status. You demonstrated an understanding of the expected and unexpected findings of the following: palpating the head and neck.</p> <p>Spend time reviewing the expected and unexpected findings of the following:</p> <ul style="list-style-type: none"> Inspecting facial expressions
Neutral Actions	<p>Neutral actions - 1 selected</p> <p>Neutral actions do not help or harm the client.</p> <ul style="list-style-type: none"> Only questions specifically related to the focused head, neck, and neurological assessment are necessary. Only steps specifically related to the focused head, neck, and neurological assessment are necessary.
Actions of Concern	<p>Order violations - 0 selected</p> <p>Order violations occur when you move through the sequence of body areas in the incorrect order; move through the assessment techniques of inspection, palpation, and auscultation in the incorrect order; fail to place or remove gloves when required; or fail to provide for privacy or safety considerations before initiating or concluding a health assessment scenario.</p>
