### Outcomes

Acute/Chronic	No of Points	Individual Score	Description
Acute	2	100.0%	A disease, condition or injury characterized by a relatively sudden onset of symptoms that are usually severe. An episode of acute disease results in: recovery to a state comparable to the client's condition of health and activity before the disease; progression into a chronic illness; or death.

Bloom's Taxonomy	No of Points	Individual Score	Description
Analyze	2	100.0%	Examine detailed information methodically to determine relationships.

Body Function	No of Points	Individual Score	Description
Ingestion, Digestion, Absorption & Elimination	2	100.0%	The anatomical structures (mouth, esophagus, stomach, gall bladder, liver, small and large bowel, rectum , and anus) and body functions that support ingestion, digestion, and absorption of food and elimination of solid wastes from the body.

BSN Essentials	No of Points	Individual Score	Description
Scholarship for Evidence-Based Practice	2	100.0%	The need for nurses to be able to understand the research process and base practice and clinical judgments upon fact-based evidence to enhance patient outcomes.

Clinical Areas	No of Points	Individual Score	Description
Adult Medical-Surgical	30	93.3%	Ability to apply medical-surgical nursing knowledge to clinical problems experienced by adults. Topics include care of clients with cardiovascular, hematologic, gastrointestinal, neurosensory, endocrine, fluid and electrolyte, integumentary, lymph/immune/infectious, renal and urinary, musculoskeletal, reproductive, and respiratory disorders as well as topics relevant to perioperative nursing care and emergency care/triage.
Pediatric Nursing	2	100.0%	Ability to apply nursing knowledge to clinical problems experienced by children. Topics include basic concepts (e.g., medication administration, physical assessment, nutritional needs), care of children with various system disorders, care of children experiencing pediatric emergencies (e.g., accidental poisoning, respiratory arrest), and care of children with psychosocial disorders.

## N321 quiz for exam 2 Fall 2025

Clinical Judgment	No of Points	Individual Score	Description
Prioritize Hypotheses	2	100.0%	Establish priorities of care based on the client's health problems (i.e. environmental factors, risk assessment, urgency, signs/ symptoms, diagnostic test, lab values, etc.). Organize client assessment information according to changes, patterns and trends. Use standards of care and empirical frameworks for priority setting. Establish and prioritize client problems/needs based on the analysis of information and factors.

NCLEX RN	No of Points	Individual Score	Description
RN Physiological Adaptation	2	100.0%	The nurse manages and provides nursing care for clients with an acute, chronic or life threatening illness.

NLN Competency	No of Points	Individual Score	Description
Human Flourishing	2	100.0%	Human flourishing is reflected in patient care that demonstrates respect for diversity, approaches patients in a holistic and patient-centered manner, and uses advocacy to enhance their health and well-being.

Nursing Process	No of Points	Individual Score	Description
RN Analysis/Diagnosis	2	100.0%	The analysis step of the nursing process involves the nurse's ability to analyze assessment data to identify health problems/risks and a client's needs for health intervention. The nurse identifies patterns or trends, compares the data with expected standards or reference ranges and draws conclusions to direct nursing care. The nurse then frames nursing diagnoses in order to direct client care.

QSEN	No of Points	Individual Score	Description
Evidence Based Practice	2	100.0%	The use of current knowledge from research and other credible sources to make clinical judgments and provide client-centered care.

Thinking Skills	No of Points	Individual Score	Description
Clinical Judgment	2	100.0%	The ability to analyze and interpret elements of a clinical situation to make a decision and respond appropriately. Incorporates Blooms Taxonomy categories of Analyzing and Evaluating.
