Time Use And Score

	Date	Time
Virtual Application: Doris Anderson - Simulation	09/30/2025	15 min

Simulation

Scenario	In this virtual simulation, you cared for Doris Anderson. The goal was to complete a focused cardiovascular assessment. Review your results below to determine how your performance aligned with the goals of this simulation.	
Overall Performance	You met the requirements to complete this virtual health assessment scenario.	Score: 93.7%
Essential Actions	Required actions - 19 of 20 correctly selected Congratulations! You have demonstrated a thorough understanding of the required actions to complete a focused health assessment based on this client's health status. You demonstrated an understanding of the following required actions: communicating with the client to elicit additional information, inspecting the lower extremities, inspecting the upper extremities, palpating the lower extremities, palpating the upper extremities, providing infection control and safety. Spend time reviewing: <ul style="list-style-type: none"> Auscultating apical pulse 	

<p>Essential Actions</p>	<p>Interactive actions - 7 of 8 performed correctly</p> <p>You demonstrated a basic understanding of assessment techniques within the focused health assessment based on this client's health status. You demonstrated an understanding of the following assessment techniques: auscultating heart sounds, inspecting capillary refill, palpating dorsalis pedis pulse, palpating radial pulse, palpating skin temperature.</p> <p>Spend time reviewing the following assessment techniques:</p> <ul style="list-style-type: none"> • Auscultating apical pulse
	<p>Expected/unexpected findings - 10 of 11 correctly identified</p> <p>You demonstrated a thorough understanding of the expected and unexpected findings from the focused health assessment based on this client's health status. You demonstrated an understanding of the expected and unexpected findings of the following: inspecting capillary refill, inspecting the lower extremities, inspecting the upper extremities, palpating the lower extremities, palpating the upper extremities.</p> <p>Spend time reviewing the expected and unexpected findings of the following:</p> <ul style="list-style-type: none"> • Auscultating apical pulse
<p>Neutral Actions</p>	<p>Neutral actions - 1 selected</p> <p>Neutral actions do not help or harm the client.</p> <ul style="list-style-type: none"> • <i>Only</i> questions specifically related to the focused cardiovascular assessment are necessary. • <i>Only</i> steps specifically related to the focused cardiovascular assessment are necessary.
<p>Actions of Concern</p>	<p>Order violations - 0 selected</p> <p>Order violations occur when you move through the sequence of body areas in the incorrect order; move through the assessment techniques of inspection, palpation, and auscultation in the incorrect order; fail to place or remove gloves when required; or fail to provide for privacy or safety considerations before initiating or concluding a health assessment scenario.</p>
