EHR Chart

Instructor Review Status	Not Reviewed
Instructor Review	This chart has not been reviewed by the instructor. This report will populate with additional information when the status has changed.
Instructor Feedback	You can view instructor feedback and, if your instructor has enabled it, the expert chart by accessing the online version of this report.

Time Use And Score

	Date	Time
Virtual Application: Doris Anderson - Simulation	09/30/2025	12 min

Simulation

Scenario	In this virtual simulation, you cared for Doris Anderson. The goal was to complete a focused cardiovascular assessment. Review your results below to determine how your performance aligned with the goals of this simulation.	
Overall Performance	You did not meet the requirements to complete this virtual health assessment scenario. Remediation is recommended before attempting this scenario again.	Score: 55.7%

Essential Actions

Required actions - 12 of 20 correctly selected

You did not demonstrate a basic understanding of the required actions to complete a focused health assessment based on this client's health status. You demonstrated an understanding of the following required actions: auscultating the anterior chest, communicating with the client to elicit additional information.

Spend time reviewing:

- Inspecting capillary refill of the lower extremities
- Inspecting capillary refill of the upper extremities
- Inspecting edema of the lower extremities
- Inspecting skin of the lower extremities
- Inspecting skin of the upper extremities
- Palpating skin temperature of the lower extremities
- Palpating skin temperature of the upper extremities
- When to sanitize hands when completing client care

Interactive actions - 4 of 8 performed correctly

You did not demonstrate a basic understanding of assessment techniques within the focused health assessment based on this client's health status. You demonstrated an understanding of the following assessment techniques: auscultating apical pulse, auscultating heart sounds, palpating dorsalis pedis pulse, palpating radial pulse.

Spend time reviewing the following assessment techniques:

- Inspecting capillary refill of the lower extremities
- Inspecting capillary refill of the upper extremities
- Palpating skin temperature of the lower extremities
- Palpating skin temperature of the upper extremities

Expected/unexpected findings - 4 of 11 correctly identified

You did not demonstrate a basic understanding of the expected and unexpected findings from the focused health assessment based on this client's health status. You demonstrated an understanding of the expected and unexpected findings of the following: auscultating the anterior chest.

Spend time reviewing the expected and unexpected findings of the following:

- Inspecting capillary refill of the lower extremities
- Inspecting capillary refill of the upper extremities
- Inspecting edema of the lower extremities
- Inspecting skin of the lower extremities
- Inspecting skin of the upper extremities
- Palpating skin temperature of the lower extremities
- Palpating skin temperature of the upper extremities

Neutral Actions

Neutral actions - 0 selected

Neutral actions do not help or harm the client.

- *Only* questions specifically related to the focused cardiovascular assessment are necessary.
- *Only* steps specifically related to the focused cardiovascular assessment are necessary.

Actions of Concern	Order violations - 0 selected Order violations occur when you move through the sequence of body areas in the incorrect order; move through the assessment techniques of inspection, palpation, and auscultation in the incorrect order; fail to place or remove gloves when required; or fail to provide for privacy or safety considerations before initiating or concluding a health assessment scenario.
