

Individual Performance Profile

RN Safety: Polypharmacy 3.0 Case Study Test

Individual Name: **HADLEY JONES**
 Student Number: **hjones@lcn.edu**
 Institution: **Lakeview CON**
 Program Type: **BSN**
 Test Date: **10/1/2025**

Individual Score: **100.0%**
 Practice Time: **6 min**

Individual Performance in the Major Content Areas

Sub-Scale	# Items	# Points	Individual Score	Individual Score (% Correct)										
				1	10	20	30	40	50	60	70	80	90	100
Critical Thinking/Clinical Reasoning/Clinical Judgment	2	2	100.0%											▲
Evidence-Based Practice	1	1	100.0%											▲
Safety	1	1	100.0%											▲
Teaching and Learning/Patient Education	1	1	100.0%											▲

Topics To Review

Outcomes

Nursing Process	No of Points	Individual Score	Description
RN Analysis/Diagnosis	3	100.0%	The analysis step of the nursing process involves the nurse's ability to analyze assessment data to identify health problems/risks and a client's needs for health intervention. The nurse identifies patterns or trends, compares the data with expected standards or reference ranges and draws conclusions to direct nursing care. The nurse then frames nursing diagnoses in order to direct client care.
RN Planning	1	100.0%	The planning step of the nursing process involves the nurse's ability to make decisions and problem solve. The nurse uses a client's assessment data and nursing diagnoses to develop measurable client goals/outcomes and identify nursing interventions. The nurse uses evidenced based practice to set client goals, establish priorities of care, and identify nursing interventions to assist the client to achieve his goals.
RN Implementation/Therapeutic Nursing Intervention	1	100.0%	The implementation step of the nursing process involves the nurse's ability to apply nursing knowledge to implement interventions to assist a client to promote, maintain, or restore his health. The nurse uses problem-solving skills, clinical judgment, and critical thinking when using interpersonal and technical skills to provide client care. During this step the nurse will also delegate and supervise care and document the care and the client's response.

Thinking Skills	No of Points	Individual Score	Description
Clinical Application	5	100.0%	The ability to apply nursing knowledge to a clinical situation. Incorporates Blooms Taxonomy category of Applying.

NCLEX®	No of Points	Individual Score	Description
RN Pharmacological and Parenteral Therapies	5	100.0%	The nurse administers, monitors and evaluates pharmacological and parenteral therapy.

Clinical Areas	No of Points	Individual Score	Description
Pharmacology	5	100.0%	Ability to apply concepts related to the pharmacodynamics and pharmacotherapeutics of commonly prescribed medications for clients with physical and mental health disorders. Topics include principles of medication administration and dosage calculation, side/adverse effects, drug/food interactions, contraindications, and nursing implications integral to the safe administration of medications to clients across the lifespan.

QSEN	No of Points	Individual Score	Description
Safety	3	100.0%	The minimization of risk factors that could cause injury or harm while promoting quality care and maintaining a secure environment for clients, self, and others.
Patient-Centered Care	1	100.0%	The provision of caring and compassionate, culturally sensitive care that is based on a patient's physiological, psychological, sociological, spiritual, and cultural needs, preferences, and values.
Evidence Based Practice	1	100.0%	The use of current knowledge from research and other credible sources to make clinical judgments and provide client-centered care.

NLN Competency	No of Points	Individual Score	Description
Nursing Judgment	3	100.0%	Nursing judgment involves the use of critical thinking and decision making skills when making clinical judgments that promote safe, quality patient care.
Spirit of Inquiry	2	100.0%	A spirit of inquiry is exhibited by nurses who provide evidence based clinical nursing practice and use evidence to promote change and excellence.

BSN Essentials	No of Points	Individual Score	Description
Scholarship for Evidence-Based Practice	1	100.0%	The need for nurses to be able to understand the research process and base practice and clinical judgments upon fact-based evidence to enhance patient outcomes.
Baccalaureate Generalist Nursing Practice	4	100.0%	The need for nurses to be able to practice as a generalist using clinical reasoning to provide care to patients across the lifespan and healthcare continuum and to individuals, families, groups, communities, and populations.

AACN Essentials	No of Points	Individual Score	Description
Person-Centered Care	4	100.0%	Person-centered care focuses on the individual within multiple complicated contexts, including family and/or important others. Person-centered care is holistic, individualized, just, respectful, compassionate, coordinated, evidence-based, and developmentally appropriate. Person-centered care builds on a scientific body of knowledge that guides nursing practice regardless of specialty or functional area.
Professionalism	1	100.0%	Formation and cultivation of a sustainable professional identity, including accountability, perspective, collaborative disposition, and comportment, that reflects nursing's characteristics and values.
