<b>Shirley Williamson: Bronchitis - Simulation</b>	10/07/2025	22 min

Simulation	
<b>Scenario</b>	In this virtual simulation, you cared for Shirley Williamson. The goal was to complete a focused respiratory and skin assessment and intervene based on the client's needs. Review your results below to determine how your performance aligned with the goals of this simulation.
<b>Overall Performance</b>	You met the requirements to complete this virtual health assessment scenario. <b>Score: 88.8%</b>
<b>Interventions Performed</b>	<p><b>Apply oxygen</b></p> <p><i>You successfully identified the need to apply oxygen to improve the client's oxygen saturation level.</i></p> <hr style="border-top: 1px dashed black;"/> <p><b>Elevate head of bed</b></p> <p><i>You successfully identified the need to elevate the head of bed to improve the client's oxygenation.</i></p>
<b>Essential Actions</b>	<p><b>Required actions - 23 of 24 correctly selected</b></p> <p>Congratulations! You have demonstrated a thorough understanding of the required actions to complete a focused health assessment based on this client's health status. You demonstrated an understanding of the following required actions: auscultating the anterior chest, auscultating the posterior chest, communicating with the client to elicit additional information, inspecting the abdomen, inspecting the anterior chest, inspecting the head and neck, inspecting the posterior chest, inspecting the upper extremities, preparing the environment, preparing to leave the room, providing infection control and safety, providing privacy.</p> <p>Spend time reviewing:</p> <ul style="list-style-type: none"> <li>Inspecting edema of the lower extremities</li> </ul> <p><b>Interactive actions - 1 of 2 performed correctly</b></p> <p>You did not demonstrate a basic understanding of assessment techniques with in the focused health assessment based on this client's health status.</p> <p>Spend time reviewing the following assessment techniques:</p> <ul style="list-style-type: none"> <li>Auscultating breath sounds of the posterior chest</li> </ul>

<p><b>Essential Actions</b></p>	<p><b>Expected/unexpected findings - 9 of 11 correctly identified</b></p> <p>You demonstrated a basic understanding of the expected and unexpected findings from the focused health assessment based on this client's health status. You demonstrated an understanding of the expected and unexpected findings of the following: auscultating the anterior chest, auscultating the posterior chest, inspecting the abdomen, inspecting the anterior chest, inspecting the head and neck, inspecting the posterior chest.</p> <p>Spend time reviewing the expected and unexpected findings of the following:</p> <ul style="list-style-type: none"> <li>• Inspecting edema of the lower extremities</li> <li>• Inspecting skin of the upper extremities</li> </ul>
<p><b>Neutral Actions</b></p>	<p><b>Neutral actions - 2 selected</b></p> <p>Neutral actions do not help or harm the client.</p> <ul style="list-style-type: none"> <li>• <i>Only</i> questions specifically related to the focused respiratory and skin assessment are necessary.</li> <li>• <i>Only</i> steps specifically related to the focused respiratory and skin assessment are necessary.</li> </ul>
<p><b>Actions of Concern</b></p>	<p><b>Delay treatment - 1 selected</b></p> <p>You selected one or more actions that would delay treatment and should not be completed based on this client's health status. Delay of treatment can occur when asking unessential questions or performing assessments that do not address the client's immediate healthcare needs.</p> <hr/> <p><b>Order violations - 1 selected</b></p> <p>Order violations occur when you move through the sequence of body areas in the incorrect order; move through the assessment techniques of inspection, palpation, and auscultation in the incorrect order; fail to place or remove gloves when required; or fail to provide for privacy or safety considerations before initiating or concluding a health assessment scenario.</p>
