Mid Term Journal

1. Discuss how you are feeling so far in clinical?

I feel more confident every other week, as I practice the skills I've learned in class and lab.

2. What have been good experiences?

The nurses I have shadowed have made the experience very good. I've learned so much!

3. Have there been any bad experiences? Are you nervous about a skill or communication?

I have not had any bad experience so far. I am a little nervous about IV sticks, but I am confident in the steps it takes. Just nervous about getting the vein.

4. Do you need to talk with anyone in private to discuss clinical?

I do not need to talk to anyone in private to discuss clinical.

5. Is there anything else you would like to mention?

I would like to thank my clinical instructor, Prof. Henry, for answering all my questions and being readily available to help and demonstrate a skill.
