

Legacy Project Summary

During my time at The Dwelling Place, I was able to see and witness what others have to deal with on a daily basis. It really helped me see what others have to go through and made me want to help more people in our community. We couldn't have picked a better place and they were so grateful for the help that we provided. This place was in need of volunteers and there were many jobs that were able to be completed due to our help. Before my time there, I never knew how many people in our community are struggling with homelessness or low income and are unable to provide for themselves or their families. This place was great for helping them get meals, a place to rest, shower, laundry, clothes, hygiene products, and even help with housing. Seeing how much of an impact my volunteer time had on this organization, makes me want to go back and help them even more. Getting to experience this project helped me open my eyes and see the wonderful resources that are available in the community for anyone in need.
