Instructor Review Status	Not Reviewed
Instructor Review	This chart has not been reviewed by the instructor. This report will populate with additional information when the status has changed.
Instructor Feedback	You can view instructor feedback and, if your instructor has enabled it, the expert chart by accessing the online version of this report.

Time Use And Score

	Date	Time
Virtual Application: Darian Oduya - Simulation	11/04/2025	16 min

Simulation

Scenario	In this virtual simulation, you cared for Darian Oduya, who was admitted to the hospital yesterday with cellulitis. The goal was to complete a head-to-toe health assessment. Review your results below to determine how your performance aligned with the goals of this simulation.	
Overall Performance	You did not meet the requirements to complete this virtual health assessment scenario. Remediation is recommended before attempting this scenario again.	Score: 55.8%
Interventions Performed	Client education - No touching	
	1 You successfully identified the need to provide client teaching about avoid touching the effected area to promote healing.	
Interventions Performed	Offer to reposition	
	1 You successfully identified the need to offer to reposition the client to promote comfort.	

Essential Actions**Required actions - 26 of 40 correctly selected**

You did not demonstrate a basic understanding of the required actions to complete a focused health assessment based on this client's health status. You demonstrated an understanding of the following required actions: Auscultating the abdomen, Auscultating the anterior chest, Auscultating the posterior chest, Communicating with the client to elicit additional information, Inspecting the lower extremities, Palpating the abdomen, Preparing the environment, Providing privacy.

Spend time reviewing:

- Assessing the IV site
- Inspecting capillary refill of the upper extremities
- Inspecting contour and symmetry of the abdomen
- Inspecting skin of the anterior chest
- Inspecting skin of the head and neck
- Inspecting skin of the posterior chest
- Inspecting symmetry of the anterior chest
- Inspecting symmetry of the head and neck
- Inspecting symmetry of the upper extremities
- Palpating skin temperature of the lower extremities
- When to close the curtain
- When to lower the bed height
- When to raise the side rail
- When to sanitize hands when completing client care

Interactive actions - 5 of 10 performed correctly

You did not demonstrate a basic understanding of assessment techniques within the focused health assessment based on this client's health status. You demonstrated an understanding of the following assessment techniques: Auscultating heart sounds, Palpating dorsalis pedis pulse, Palpating the abdomen.

Spend time reviewing the following assessment techniques:

- Auscultating apical pulse
- Auscultating bowel sounds
- Auscultating breath sounds of the anterior chest
- Inspecting capillary refill of the upper extremities
- Palpating skin temperature of the lower extremities

<p>Essential Actions</p>	<p>Expected/unexpected findings - 10 of 26 correctly identified</p> <p>You did not demonstrate a basic understanding of the expected and unexpected findings from the focused health assessment based on this client's health status. You demonstrated an understanding of the expected and unexpected findings of the following: Auscultating the abdomen, Auscultating the posterior chest, Palpating the abdomen.</p> <p>Spend time reviewing the expected and unexpected findings of the following:</p> <ul style="list-style-type: none"> • Assessing the IV site • Ascultating apical pulses • Auscultating heart sounds • Inspecting capillary refill of the upper extremities • Inspecting contour and symmetry of the abdomen • Inspecting edema of the lower extremities • Inspecting facial expressions • Inspecting skin of the anterior chest • Inspecting skin of the head and neck • Inspecting skin of the lower extremities • Inspecting skin of the posterior chest • Inspecting symmetry of the anterior chest • Inspecting symmetry of the head and neck • Inspecting symmetry of the lower extremities • Inspecting symmetry of the upper extremities • Palpating skin temperature of the lower extremities
<p>Neutral Actions</p>	<p>Neutral actions - 5 selected</p> <p>Neutral actions do not help or harm the client.</p> <ul style="list-style-type: none"> • <i>Only</i> questions specifically related to the client's healthcare needs are necessary. • <i>Only</i> steps related to a head-to-toe health assessment are necessary.
<p>Actions of Concern</p>	<p>Nontherapeutic communication</p> <p>You selected one or more actions that were nontherapeutic. These types of communication can potentially hinder the nurse-client relationship and discourage further communication.</p> <hr/> <p>Order violations - 6 selected</p> <p>Order violations occur when you move through the sequence of body areas in the incorrect order; move through the assessment techniques of inspection, palpation, and auscultation in the incorrect order; fail to provide for privacy or safety considerations before initiating or concluding a health assessment scenario.</p>
